

MARSHAL TIMOSHENKO'S RED ARMIES DRIVE GERMAN FROM SERIES POSTS

GROUP OF FORTIFIED POSITIONS ARE TORN FROM GERMAN GRASP

DRAMATIC RESURGENCE OF BOTH DEFENSIVE, OFFENSIVE SOVIET POWER

By EDDY GILMORE.
MOSCOW, Sept. 24.—(AP)—Red army men of Stalingrad have torn a group of fortified positions from the German grip, recaptured a settlement northwest of the city and slain more than 7,200 invaders in a dramatic resurgence of both defensive and offensive power, the Russians said today.

Communications of the day implied that there were not a single breach in Russian lines within the streets of the embattled Volga river city. The Germans were reported again "hurriedly bringing up reinforcements" by plane to fill their ranks.

The Red army's Volga river gunboats helped Red army artillerymen, machine-gunners and riflemen now down the invaders by the thousands.

Official reports of midnight and mid-day listed 115 additional tanks and more than 48 field guns as wrecked or captured in fresh actions of the bitter, month-old battle.

Russians were declared doggedly holding their positions in the bread streets and smoking ruins under shot, shells and bombs and the fact that Stalingrad, never a fortress city, still held out in the 31st day of its siege was regarded here as one of the greatest testimonies to the skill and courage of the Red army.

The army newspaper Red Star said the current fighting was the most intense of the battle.

Used 200 Tanks.

The Germans were declared to have used 200 tanks as a shield for one push into the body of the city, only to be repulsed.

Nazi troops seized a large building in violent fighting. Soviet patrols rushed its approaches and overpowered guards on the stairways in corridors and rooms. Red Star said, Russian fighters armed with explosives blew up the structure with the Germans inside.

German attacks were declared to have led one of the far-flung front, in the Sinyavino area on the Volga river; at Voronezh; southwest of Novorossiysk; and in the Mordok region of the central Caucasus.

Soviet troops repulsed several attacks overnight in the Stalingrad area and boasted to the Stalingrad, 3,000 the roll of invaders killed in the last four days, the Russians said.

"One Soviet tank unit has dislodged the Germans from fortified positions, destroying six tanks and several trucks and killing 600 Germans," the mid-day communique announced.

"Men of one Soviet (Elite) unit,"

Here's Example of Rapid Spreading Unfounded Rumor

An unfounded rumor. Hundreds of Corsicans rushed to filling stations last Wednesday night and Thursday morning, hurrying attendants with the request "to fill her up."

Numerous stations reported Thursday morning they sold out all the gasoline in their storage tanks and in some instances, disposed of additional tanks delivered by the wholesale distributors after the "runs" developed.

One station reported he had planned a good night's sleep, was awakened by a well-meaning friend at 12:30 o'clock and again at 3 a. m. over the telephone with some one excitedly advising him to go to town and fill up his gasoline tank as "rationing of gasoline starts within an hour."

Some filling station operators voiced the opinion the origination of the unfounded rumor was local, while a majority said it had been traced to Houston.

An Associated Press dispatch from Houston late Wednesday night said that thousands of Houstonians and residents of Galveston jammed their automobiles bumper to bumper for blocks because of a report that rationing would begin at midnight.

The government has repeatedly warned against unfounded rumors, and officials have again and again advised against the acceptance of unfounded reports and rumors. An order would have to be sent to all operators, the public, etc., and rationing books would have to be put into operation.

An unfounded rumor.

Houstonians Buy Gasoline.

HOUSTON, Sept. 24.—(AP)—A rumor that gasoline rationing would begin tonight has caused thousands of Houstonians to buy gasoline today.

TEXAS ATTORNEY GENERAL BE ASKED POLL TAX RULING

SECRETARY OF STATE FEELS BILL IN CONFLICT STATE CONSTITUTION

By BRACK CURRY.
AUSTIN, Sept. 24.—(AP)—Attorney General Gerald C. Mann will be asked to rule on the constitutional power of the Texas Secretary of State to administer the act of granting voting privileges to members of the armed forces without requiring a poll tax.

Announcing that he would request an opinion from Mann, Secretary of State William P. Lawrence said yesterday that he felt the act "was in conflict with the state constitution" and that he was "constitutionally prohibited from administering the law."

Under the bill, any Texan in the armed forces who makes a request in writing to the secretary of state can vote in the general election and in subsequent primary elections. The act limits this voting privilege to election for president, vice president, United States senators and members of the national house of representatives.

Lawson pointed out a press conference that since Texas has no registration system for voters "there is no way to check the law."

See MANN RULING, Page 9

Willkie Says Russians Are Disappointed

MOSCOW, Sept. 24.—(SPL)—Wendell L. Willkie said today he would take back to Washington from Soviet Russia a story of growing disappointment and dissatisfaction over the failure of the United States and Britain to establish a second front.

"I feel it and you must," said Willkie.

He presented Joseph Stalin a large, thick and square envelope containing a personal message from President Roosevelt at a conference with the Soviet premier in the Kremlin last night.

To foreigners who have been working here since the Washington-London-Moscow agreement on the war were announced June 11 it has been no secret that individuals are gradually getting cooler treatment from the Russians, both official and private citizens.

To date Willkie has talked to the highest officials of the government and to workers in factories.

They all expressed appreciation for aid from the United States and Britain, but Willkie said it was apparent that what they really want is a second front.

"Unless one is created, they are going to feel terribly let down, he asserted.

It was assumed here that Willkie will report to President Roosevelt this growing coolness.

The Fulman train was hurtled into the side of a fast freight train there, too.

U. S. DESTROYER JARVIS DISAPPEARS IN SOLOMONS AREA

AUXILIARY TRANSPORT LITTLE ALSO REPORTED HAVE BEEN SUNK

WASHINGTON, Sept. 24.—(AP)—The Navy announced today that the United States destroyer Jarvis had disappeared in the Southwest Pacific without leaving a trace, presumably sunk by enemy submarines or aircraft, and that the auxiliary transport Little had been sunk during recent operations in the Solomon Islands.

Possible loss of life on the two ships was estimated at 250 men.

The Jarvis was en route base when she vanished several weeks ago. She had been damaged by an enemy air attack off Guadalcanal in the Solomon Islands.

Approximately half of the personnel of the Little was saved when she went down.

The loss included two commanding officers, Lieutenant Commander William Walter Graham, Jr., Phoenix, Ariz., of the Jarvis, and Lieutenant Commander C. E. Lofberg, (95 Mission Street) Santa Cruz, Calif., of the Little.

Navy communique Number 131 said:

"South Pacific.—Jarvis (destroyer), which was damaged as a result of enemy air attacks off Guadalcanal, must be presumed lost at sea en route from Tulagi to a southern repair base. The Jarvis had been overdue for several weeks and intensive search by ships and aircraft has failed to locate her or reveal any trace of her personnel. It is assumed that she was sunk."

AUSTRALIAN JUNGLE FIGHTERS CONTINUE TO HOLD JAPANESE ALLIED PLANES STRAFED ENEMY TROOPS AND BLASTED SUPPLY BASES

By The Associated Press.
Australian jungle fighters were reported holding firmly today amid a renewal of fighting in the New Guinea mountains, 32 miles from Port Moresby, while allied warplanes strafed Japanese troops and blasted enemy supply bases.

Gen. Douglas MacArthur's headquarters said casualties suffered on both sides in clashes on the southern slope of the Owen Stanley range, but there was no indication of any further Japanese advance.

Continuous aerial strafing of the enemy communication lines was reported greatly hindering the Japanese in the already difficult task of keeping their forward troops supplied.

A United Nations communique said allied fighters made three sweeps over the key Japanese base at Buna, New Guinea, raking seven enemy barges with cannon and machine-gun fire and blasting supply dumps. Earlier, allied bombers dropped one-ton bombs on the Buna airfield in a night assault, setting big fires.

In the China campaign, a Chinese army spokesman reported a full day of fighting.

PASSENGER TRAINS IN REAR-END CRASH AT DICKERSON, MD.

SEVERAL REPORTED KILLED AS PULLMAN THROWN INTO PASSING FREIGHT

By JAMES E. HAGUE.
DICKERSON, Md., Sept. 24.—(AP)—Six persons were known dead and 14 others trapped "with no signs of life" in the still blazing wreckage of a Pullman car smashed and twisted early today in a collision of two passenger trains and a freight on the Baltimore and Ohio Railroad main line.

The known dead were identified as a flagman, four passengers in the telescoped Pullman, and one man decapitated in a baggage car.

Fourteen persons were believed still within the burning Pullman nearly six hours after the wreck, and C. L. Norris, Baltimore and Ohio railroad manager at Dickerson, said there were "no signs of life" within the wreckage.

The Pullman was the last car in the Washington-bound Cleveland night express, into which the Diesel engine of the crack Ambassador train ploughed about 7:30 a. m. The Pullman train was hurtled into the side of a fast freight train there, too.

MICHIGAN SENATOR SEES DISUNITY DUE CONGRESS ACTION

FARM POLITICAL BLOC DETERMINED TO PUT PARITY PRICES HIGHER

WASHINGTON, Sept. 24.—(AP)—Senator Brown (D-Mich) told the senate today he feared Congress and the President were heading for a "collision" that "God forbid," might have to be settled by the third branch of government, the Supreme Court.

Taking the floor immediately after 13 senate agriculture committee members had voted to reject an administration-sponsored compromise in the controversy over farm parity price provisions of the anti-inflation bill, Brown told his colleagues:

"I believe the congress and the President are headed for a collision. x x x I am fearful at this time when unity is the need in the conduct of the government today that we are going to have criticism, disunity and discord between the legislative and the executive branches of the government."

"God forbid that this should happen," he continued, "but it is entirely possible that this dispute may have to be resolved in the third branch of our government."

Brown alluded to the demand of the congressional farm bloc that farm parity prices be revised upward to take into account cost of all farm products, a revision to which President Roosevelt said he was "unalterably opposed."

Some administration supporters have said that if this provision, already approved by the house in passing the anti-inflation legislation, were finally adopted by congress, the President might veto the bill and proceed to act under executive authority.

Organization Leaders Present.

Senator Thomas (D-Okla.) said all members present at a meeting with leaders of farm organizations agreed to stand by an amendment sponsored by him and Senator Hatch (D-NM), which would increase the level of parity prices by about 12 per cent by including all farm labor costs as a factor.

The house adopted a similar amendment yesterday in passing a measure authorizing and directing President Roosevelt to stabilize prices, wages and salaries at Sept. 15 levels, so far as practical.

British Bombers In Night Raids on Nazi Objectives

LONDON, Sept. 24.—(AP)—British bombers in their first night raid against Germany this week attacked objectives in the north and northwest, including submarine yards at Flensburg, last night, the air ministry announced today.

This thrust accompanied a raid by coastal command aircraft on an axis convoy off the Dutch coast in which three medium-sized ships were declared hit.

"Ten of our bombers are missing from these operations," the air ministry said.

Authorities said that overnight aerial fighting against Britain was confined to flights by three Nazi bombers. One was reported destroyed before it crossed the coast.

Five Killed In Rye Theater.

LONDON, Sept. 24.—(AP)—An "initial" preliminary disclosure today that Rye was the town on the British Southeast coast where a lone German raider bombed a motion picture theatre Tuesday afternoon. Five persons, including one theater employee, were killed.

QUARREL BETWEEN HITLER AND GEN. VON BOCK MAY PROVE TO BE DECISIVE BATTLE OF WAR

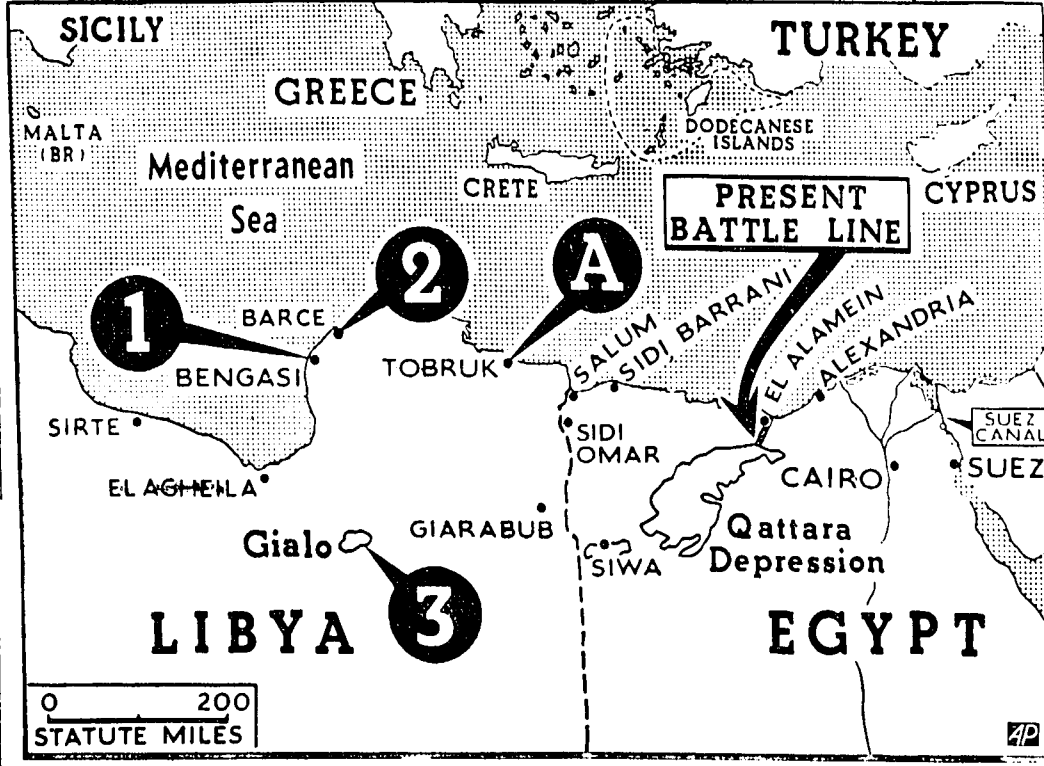

By DEWITT MACKENZIE.
Wide World War Analyst.

That quarrel between Herr Hitler and the commander-in-chief of his now-or-never offensive against the Caucasus, Field Marshal Fedor von Bock, may prove internally to be the decisive battle of the war.

The basic strategy of the vital Caucasian campaign is said to be involved in this historic argument, which is reported to have resulted in Von Bock being relieved of his command. The point at issue is described as this:

Von Bock, who ranks as one of the outstanding generals of our time, wanted to concentrate on the Caucasus and not attack Stalingrad at the same time. He maintained that an assault against the great industrial city on the Volga would be too costly in casualties. Not that the cold-blooded Von Bock ever gave a damn about the lives of his men for their own sakes, but because he badly needed this fresh young man-power for his main show.

It seems that the Nazi high command, who boasts that he works by

BRITISH TELL OF RAIDS 500 MILES BEHIND GERMAN LINES—Raids on the big Axis supply port of Bengasi (1), the harbor of Barce (2), and the desert outpost of Gialo (3) were disclosed by the British. Bengasi and Barce were attacked the same night as Commandos raided Tobruk (A). Axis forces, British said, were dealt heavy blows and Italians acknowledged a six-day battle at the Gialo Oasis.

MEAT CONSUMPTION BY CIVILIANS WILL BE CUT OCTOBER 1ST.

CITIZENS URGED TO VOLUNTARILY GO ON RATIONED BASIS

By WILLIAM NEEDHAM.
WASHINGTON, Sept. 24.—(AP)—Secretary of Agriculture Wickard announced today that, beginning Oct. 1, civilian meat consumption during the last three months of this year would be restricted to approximately 79 per cent of the amount delivered by packers for civilian use during the last quarter of 1941.

Simultaneously, Wickard reiterated that citizens voluntarily should limit themselves to 2-1/2 pounds of meat a week per person, to permit a fair sharing of available supplies.

As chairman of the War Production Board's food requirements committee, Wickard disclosed that to assure sufficient meat for army, navy, and lend-lease needs, the committee had ordered deliveries for civilian use curtailed on this basis:

Beef and veal, 80 per cent of deliveries during the last quarter of 1941; lamb and mutton, 95 per cent; pork, 75 per cent.

RETURNED AP STAFF MAN TELLS HOW HITLER GATHERS METAL IN GERMANY; IT'S DIFFERENT HERE

SCRAP METAL NEED DECLARED CRITICAL BY U. S. STEEL MEN

EDITOR'S NOTE:—An Associated Press staff man, who returned from Germany in June, told of Hitler's frantic search for metals.

By ERNEST G. FISCHER.
DALLAS, Sept. 24.—(AP)—Collection of scrap metal all over America reminds those of us who have been in Germany that Hitler's hunt for metals long ago passed the junk-salvaging stage.

American nationals interned at Bad Nauheim saw workmen remove several large bells from the belfry of the church edifice across the street from the hotel in which the repatriates were held. American churchgoers heard the pastor read a circular letter from the ministry of the interior saying that congregations throughout the Reich were being asked to sacrifice bells for the war purposes. We were told that the metal was needed for the manufacture of bushings in airplane engine bearings.

As the bells of Bad Nauheim were carted away, moist-eyed natives paused on the sidewalk near the church. Those bells had tolled for christenings, weddings and funerals. Now they were destined for the maw of Hitler's war machine.

Metal fences, many of them artistic products of wrought iron, razed by hack-saw and blow torch, had suffered the same fate. Hundreds of statues from public parks and squares throughout Germany, as well as in Paris and other occupied cities, went into the furnaces. For some reason or other, the busts of Bismarck, the Iron Chancellor, escaped the furnace's savage crevice.

At the outbreak of the European war, Germany found that the new 80-foot wide concrete highways made excellent runways for airplanes. These highways had to be torn up and taken off. To guard against that, especially on highways converging on Berlin, Hamburg and other cities, worn-out

Steel men estimated they would need to pile up at least 17 million tons of scrap between now and Jan. 1, when war production is expected to reach its peak. Monthly consumption of scrap now is running at about four million tons, the greatest in history but still not enough.

"The recovery of scrap is so vital," said Ralph H. Watson, vice president of the United States Steel Corporation, "that every farmer and every householder has a heavy responsibility or the country's production of guns, tanks, ships and ships."

Because scrap collection was lagging badly the government asked the newspapers for the next three weeks to stimulate their communities into an all-out effort to dig up metal junk—items no longer needed.

Steel men and leaders of the newspaper drive, worried that

SON CONFESSED TO BRUTAL SLAYING OF FATHER AND MOTHER

ST. LOUIS, Sept. 24.—(AP)—After hours of questioning Robert Nash, 27-year old St. Louis electrician, today confessed, said Police Capt. Leonard Murphy, to the ax slaying of his father and mother during a quarrel over his financial difficulties.

Murphy, of the St. Louis police detective division, said the husky, blonde-haired youth related details of the brutal crime to police, Federal Bureau of Investigation agents and Illinois authorities.

Charles A. Nash, 61-year old internal revenue agent, and his 49-year old wife, Elizabeth, were found hacked and mutilated, Tuesday night in the family automobile on a highway eight miles north of Springfield, Ill.

Nash said at a press conference after police announced he had admitted the slaying that the altercation with his parents took place on a deserted country road near St. Louis. He stopped the car, he

RUSSIANS ROLL UP HEAVY TOLL OF NAZI DEAD IN STALINGRAD

INVADEES HAVE MADE NO PROGRESS IN BITTER FIGHTING PAST 24 HOURS

By ROGER D. GREENE.
Associated Press War Editor.

Bolstered by shell-fire from Volga gunboats, Marshal Semion Timoshenko's Red armies were reported to have driven the Germans from a series of fortified positions in Stalingrad today, rolled up a four-day toll of more than 13,000 Nazis killed, and struck a sharp counter blow northwest of the Volga metropolis.

Adolf Hitler's field headquarters again stressed the fury of the battle, declaring in a terse, noncommittal bulletin:

"Street fighting in Stalingrad is continuing with undiminished bitterness."

Significantly, the Nazi communique made no claim of fresh gains in the bloody house-to-house fighting, despite the reported arrival of strong German reinforcements.

The Nazi command further noted "strong Soviet counterattacks" north of the city in which 34 Red Army tanks were reported destroyed.

Soviet headquarters, reporting perhaps the biggest success of the entire 31-day-old siege, indicated that the Germans had failed to drive a single new breach into Russian lines within the embattled city.

German reverses also were reported on four other sectors of the far-flung front: At Sinyavino, southeast of Leningrad; at Voronezh, 300 miles north of Stalingrad; below Novorossiysk, on the Black Sea coast; and in the Mordok sector of the central Caucasus.

Mid-Day Announcement.

At mid-day, Red army headquarters announced:

"Northwest of Stalingrad, Soviet troops have inflicted a counter-blow on the Germans. One unit, by a vigorous attack, dislodged the Germans from a populated place. The Germans left 250 dead on the field."

Another sector, several enemy attacks were repulsed and about 700 Germans killed."

A Vichy (French) radio broadcast said the Russians, in a dramatic resurgence of striking power, had recaptured a number of streets in the northwest suburbs of Stalingrad.

The broadcast, quoting Berlin advice, said the Russians had launched a drive "in fairly considerable force" in that sector.

In the Sinyavino area, our troops repulsed several enemy attacks," the Soviet command said.

"The Germans are suffering heavy losses and are hurriedly bringing up reinforcements by plane."

Volga river gunboats hid down

See INTERNATIONAL, Page 6

TEXAN IS NAMED GENERAL MANAGER UNITED STATES CC

WASHINGTON, Sept. 24.—(AP)—Ralph Bradford, 50-year old Texas economist, today was named to the new position of general manager of the Chamber of Commerce of the United States as part of a general reorganization to gear the chamber's machinery to war and post-war needs.

Bradford will have jurisdiction, under President Franklin D. Roosevelt and the board of directors, of the Chamber's entire operations, including a new streamlined set-up putting major activities under 12 main groupings to speed up and simplify the organization's work.

The appointment will be effective Oct. 1, the date of the reorganization, announced last spring, of John W. O'Leary of Chicago, as chairman of the chamber's executive council. O'Leary was president of the chamber from 1935-37. It is understood Bradford will take over much of the work of this council which is composed of a small number of the 57-man board of directors and which usually administers chamber affairs between board sessions. The council will continue to function, however, in an advisory capacity, officials said.

Bradford was born on a farm near Waynesburg, Pa., and moved with his family to Hoboken, Texas, when he was 15. He spent most of his life in local chamber work in Texas, being manager of the Corpus Christi local from 1924-29. Author of a number of books on economic subjects, he has served as manager of the national chamber of commerce, the national organization department and as its secretary since 1939.

"The first job of the chamber," Bradford said, "is to direct its efforts towards winning the war. After that, we are concerned with the wide range of problems that affect business and the national welfare. We are gearing the chamber for quick and efficient service in the war effort and in what will follow."

Secretary War Shocked Over Plan for Fight

WASHINGTON, Sept. 24.—(AP)—Secretary of War Stimson said today he was "shocked" over arrangements for the Joe Louis-Billy Conn championship prize fight which had started a personal investigation.

"I didn't know of the details until this morning," Stimson told his press conference. "I've been shocked at the situation."

"I am making a personal investigation which I hope to complete within 48 hours."

The war secretary's announcement was prompted by a question whether he would comment on the proposed October 12 fight at the Yankee Stadium in New York between Sgt. Louis, the heavyweight champion, and Pvt. Conn. He declined to state what details "shocked" him.

When original sanction for the fight was given on Sept. 8, the war department announcement said that the entire net proceeds would be turned over to the Army emergency relief fund. The announcement said further that

HOUSE COMMITTEE MAY TAKE ACTION UPON FARM LABOR

By WILLIAM F. ARBOGAST.
WASHINGTON, Sept. 24.—(AP)—Apparently convinced that government officials intend to do nothing now about a farm labor shortage, members of the house agriculture committee today were reported on the verge of drafting legislation to deal with the problem.

Before taking any such action, though, Chairman Fulmer (D-S.C.) said the committee would seek the opinion tomorrow of Maj. Gen. Lewis B. Hershey, selective service director, and possibly later that of Paul V. McNutt, war manpower commission head.

"It may be that General Hershey will have some recommendations," Fulmer said. "At any rate, we want to hear his views and try to get an idea of the manpower needs for the armed forces."

After hearing Secretary of Agriculture Wickard warn that failure to relieve the farm labor shortage would make it necessary "in the not too distant future to deal with a shortage of food," Fulmer told reporters:

"The secretary offered us no real solution to the problem which he admitted was grave. It is beginning to look like government officials will not do anything about it until an actual food shortage stares them right in the face. It might be too late then."

Rather than wait until then, Fulmer added, committee members believe they should take "an aggressive attitude" toward the problem themselves.

What form any proposed legislation would take was highly uncertain. Fulmer himself has advocated payment of higher prices to farmers for their products to enable them to compete in the labor market with war factories. Some form of government subsidy might be necessary to bring this about, he conceded.

LOCAL BUSINESS AND PROFESSIONAL MEN WILL ENTER ARMY

A number of local business and professional men was noted among a list of twenty-three who were sent to Dallas Monday by the Corsicana recruiting office for final physical examination preparatory to their enlistment as specialists in the U. S. Army Air Corps.

In announcing the group, Sgt. M. A. Strickland stated that this branch will be assigned to one of the following schools: Fort Worth, Waco, Big Springs, Greenville and Enid, Oklahoma.

Those going to Dallas Monday were: Henry L. Fuller, Jesse J. Barham, Aubrey E. Smith, Clifton N. Tramel, Porter M. Speed, Willie L. Burge, Willis H. Jeter, Arthur Z. Perkins, Harold Hart, J. A. King, Daniel, William D. McCarry, Jr., Clarence R. Sandlin, Elmer T. Farr, Joe C. Kent, Byron F. Arnett, Gordon H. McClintock, Frank M. Caldwell, all of Corsicana; James H. Smith, Mexico; Wendell J. Holladay, Dawson; Aubrey C. Mayo, Trinidad; Phillip R. Barham, Blooming Grove; J. Newton Barron, Jr., Dawson.

Personal

C. O. Weaver, Dawson banker, and president of the Navarro County Hospital Board, was a business visitor in Corsicana Tuesday.

An Open Letter To Men Only!

This is an open letter to men only. If you are a male citizen of the United States and your age is within the present limits of military service, it is directed to you personally, and you will want to read carefully the following facts which, from now on, will be of vital importance to you.

Daily, weekly, monthly, more and more men are needed for our armed forces, and from all indications more men are scheduled to be called in October than in any previous thirty-day period.

If you are a man between the ages of 17 and 50, you should inquire about the possibilities of service in the United States Navy, before you are called into another branch. You can be accepted for Naval service up to the time of your actual induction—and you will have the satisfaction of knowing you volunteered your service to your country.

One of the first and most important facts confronting the man who is undecided on whether to enlist in the Navy is the all-important question of pay. The base pay in the Navy—that is, for an apprentice seaman—is the same as that of a private in the army. But a promotion and increase in pay is made after the first two months of service in the Navy, for every man who enlists as an apprentice seaman automatically becomes a seaman, second class, which corresponds to the army rating of private first class.

Every Navy recruit has a chance of assignment to a Navy trade school, where each man can become an expert in the trade for which he has shown himself best adapted. The Seabees, Navy construction unit, offers unusual opportunities. All Seabees automatically become at least seaman, second class upon enlistment. Many older married men, if qualified in a skilled trade, will be especially interested in joining the Seabees, but all men 17 to 50 are acceptable.

Age limits for service in the regular Navy, the Naval Reserve and the Seabees are from 17 to 50 and a half. Single men from 17 to 30 are eligible to join the regular Navy and serve for six years, but all men from 17 to 50, whether with or without dependents, single or married, may enlist in the Naval Reserve for the duration.

Time is an essential element in enlisting, however. Many men who have delayed too long in volunteering for the Navy now regret it. You should choose your service while you are still free to do so.

Navy recruiting stations are in Dallas, Abilene, Amarillo, Big Spring, Fort Worth, Longview, Lubbock, Paris, San Angelo, Sherman, Tyler, Waco, Wichita Falls. Other stations are in Childress, Corsicana and Rusk.

A ROMANCE IN EGYPT POINTS POST-WAR PROBLEM*

How to Behave Toward Enemies Who Have Been Made Helpless—The Thrilling Story of Joseph's Revelation of Himself to His Brothers, And His Forgiveness to Them

By WILLIAM T. ELLIS.

Our present national problem is full of parallels to the story of Joseph. The post-war problem, already being debated, is more delicate and difficult. How to treat a beaten foe and how to remake a broken world.

Many suggestions for revenge have been made, perhaps the most fantastic being the proposal that Hitler be put in a cage and exhibited in the capitals of the world. Serious statesmen are pondering the difficult question of how to administer justice to the many guilty persons and at the same time build a new order of mercy and peace.

Certainly forgiveness must come into play. Here as a starting point for discussion, we have the thrilling and dramatic story of Joseph, who held in his power the brothers who sold him into slavery, and yet forgave them and loved them and provided richly for them. We cannot forget the greater example of the Saviour, who while He hung on a cruel cross, cried, "Father, forgive them."

As the Wheel Turns

This whole story of Joseph, which we have been studying, is the longest and most colorful in the old Testament. We saw Joseph, favorite of his father, Jacob, a guileless, tactless, imaginative youth, seized by his ten older brothers and sold into slavery in Egypt. The native stuff in Joseph was toughened and made wise by adversity. He did well whatever he was told to do, and won post after post of responsibility, even though but a slave. His religion motivated him and carried him through the fires of a terrible temptation. Sudden fortune, such as happens in fiction and real life, made him grand victor in the period of plenty and then a famine, Joseph made sure that Egypt had food, while the regions round about were hungry.

Foretelling a period of plenty and then a famine, Joseph made sure that Egypt had food, while the regions round about were hungry. This condition brought Jacob's ten sons down on a mission from Canaan to buy food. They did not recognize in the richly accoutered official, surrounded by oriental pomp, their brother Joseph, though he knew Jacob through various tests of which was to hold Benjamin as a hostage. Judah rose to heights of viceroyship and eloquence in offering himself as a substitute.

The dramatic revelation. Then Joseph broke down. He could control his pent-up emotions no longer. His generous, sensitive spirit burst forth passionately; for these scared, suppliant shepherds were his own flesh and blood. He sent for the presence of all the court officials and servants. Alone with his family, he burst into a demonstration of feeling that was heard outside of palace walls and must have set court circles by the ears.

Joseph's first word concerned his own identity and his father Jacob. He wanted reassurance that all was well with the aged patriarch. The covering formalities were stunned; they could not believe their ears; the thing was incredible. Only when he detailed his autobiography as a signal providence of Jehovah did they accept its reality. The sort of tale which the Orient loves was being enacted before their eyes in living reality.

The Overruling Plan. Joseph's story attested the first and finest truth of religious faith—that men are not merely driftwood, tossed hither and yon by the stream of events, but that every life has a place in the beneficent plans of a loving God. Here is the truth that dignifies and comforts and supports every believing mortal. God cares. His great power is at the service of His great love. There is no other pillow for a troubled mind like the multitude of Scripture promises, such as "casting all your care upon Him, for He careth for you."

The poet Wordsworth expressed the truth in memorable lines:—"One adequate support For the calamities of mortal life Exists—one only: an assured belief That the procession of our fate, however Sad or disturbed, is ordered by A being of infinite benevolence and power; Whose everlasting purposes embrace All accidents, converting them to good."

In this spirit our world must meet its post-war burdens. This awful war has not merely "happened." It is due to causes which include the wicked will of sinful men and the overruling design of the Almighty who will bring out of it unimaginable good. We are suffering, not the death throes of civilization, but the birth pangs of a Divine new order for the whole earth. These are days in which we should plant our feet firmly where Joseph rested his—on the sovereignty of the living God. Reverently, we are to conform our lives to the vast designs of the Almighty, who delights to call Himself Father.

A Great Man Shaken. One of those profound, soul-shaking experiences which leave an indelible mark upon the soul had come to Joseph. In this hour he saw the fulfillment of the purpose of all of his experiences. All possible meanness and spirit of retaliation or revenge were burnt up in the flame of a sublime moment. The real Joseph, the great and God-fearing Joseph, came to the fore.

He spontaneously forgave his trembling brothers, and took them to his bosom with a fraternal kiss. Their crime had been grievous, and worthy of great punishment. Instead, they were given a full pardon and such lavish provision for their future as to give them no cause for worry.

*The Sunday School Lesson for September 27 is on "Joseph: An Example of Forgiveness"—Genesis, 45-50.

as only a royal heart could devise. God, whose quality it is to show mercy, puts forgiveness into every spirit that is in fellowship with Him. Not without significance is it that in the model prayer which Jesus taught His disciples He imbedded forgiveness in a central place, making it a condition of salvation.

Shallow boasters often declare that they "never forget and never forgive." The pettiness of this spirit becomes glaring when contrasted with nature of God. All decent living calls for the quality of forgiveness. Unforgiving souls are so embittered that they poison the whole of life. It is the big forgive; and lack of that bigness wrecked the Versailles Peace Treaty.

We hope for a few Josephs to sit about the table where the post-war peace treaty will be signed. It will take truly great men to prescribe a fair admixture of punishment, justice and forgiveness. May the spirit of Joseph and of Jesus be present.

SEVEN SENTENCE SERMONS
Genius is eternal patience.
—Anon.

The real difficulty with thousands in the present day is not that Christianity has been found wanting, but that it has never been seriously tried.
—H. P. Liddon.

For strength to bear is found in duty done.
And he is blest indeed who learns to make
The joy of others cure his own heartache.
—Drake.

Be ashamed to die until you have gained some victory for humanity.
—Mason.

Lord, how oft shall my brother sin against me, and I forgive him? Till seven times? Jesus saith unto him, I say not unto thee, Until seven times; but, Until seventy times seven.
—Matthew 18:21, 22.

O Lord, grant that I may never see to him who has wronged me. The straight to the crooked; that is, Thy will to mine; But that I may ever bind the crooked to the straight; That is, my will to Thine.
—Augustine.

The sceptre that I am most afraid of at the last is the sceptre of lost opportunities.
—Theodore L. Cuyler.

Margaret Younger Weds H. McCraw
Miss Margaret M. Younger, niece of Mr. and Mrs. G. F. Scruggs of Purdon and Herman L. McCraw of Corpus Christi, son of Mr. and Mrs. W. H. McCraw of Purdon, were married Friday evening, Sept. 18 at the home of the bride.

Rev. F. T. Fisher, pastor of the Purdon Methodist church officiated. The bride wore a street length dress of navy blue crepe with matching accessories. Her corsage was of white gardenias.

Miss Louie Spence was maid of honor and the bridegroom was attended by his brother, Alford McCraw as best man.

Those attending the ceremony were Mr. and Mrs. G. F. Scruggs, Mr. and Mrs. W. S. Moore of Frost, Mr. and Mrs. A. S. Thompson of Purdon, Rev. and Mrs. Elmer Gray of Fort Worth, Miss Louise Spence of Levelland and Mr. and Mrs. Alford McCraw.

Immediately after the ceremony Mr. and Mrs. G. F. Scruggs gave a supper honoring the couple Saturday afternoon a miscellaneous shower was given in their honor.

Mr. and Mrs. McCraw will be at home at 918 Tenth Street, Corpus Christi.

Mr. Farmer
Bring us your hens, fivers, eggs and sour cream. We will pay you the highest market price in cash.

FARMERS URGED TO PICK THEIR COTTON VERY CAREFULLY

COLLEGE STATION, Sept. 22.—(Spl.)—Texas cotton farmers and handlers were urged today by the Texas USDA war board to be extra careful in picking and handling of this year's cotton crop.

Careful picking and handling of this year's cotton crop is of A importance because of the record need for high-grade and long staple cotton in this country and the drop in demand for low-grade and short staple cotton, the war board advised members of county boards.

Heavy military and civilian demand for cotton textiles have resulted in a greater need for high-grade and long staple cotton than ever before by domestic mills, the board declared. In addition, wide-range market premiums are discounts make it much more profitable to guard against unnecessary lowering of grade.

Variation in the care of handling cotton often can raise or lower the quality of a bale by one or two grades, the board's statement continued. Since grade and staple premiums and discounts have wide-range work more to the advantage of the higher grades and longer lengths than at any time during the past 10 or 15 years.

County Council Of Home Clubs Met Saturday

The Navarro County Council of Home Demonstration Clubs met Saturday at Kinsloe House with Mrs. R. P. Garrett conducting opening exercises. Songs were sung and the club pledges motto and prayer repeated in unison.

Mrs. Etta Skinner, finance chairman, gave a report on club donations, asking that all clubs send in their reports as soon as possible. Mrs. Frank Shaw, year-book chairman, asked for suggestions for changes in yearbooks for the coming year. It was decided that more songs will be added.

Mrs. C. M. Stover, chairman of reporters, asked that all reporters attend the meetings. Council members voted to have short achievement tours instead of the usual long one in order to conserve tires. Mrs. C. C. Willis announced the grouping of clubs for tours as follows: Monday, Oct. 12, Richland, Mildred, Angus and Pickett; Tuesday, Oct. 13, Union High, Stansell and Spring Hill; Wednesday, Oct. 14, Oak Valley, White's Chapel, Corbett and Emboush; Thursday, Oct. 15, Barry, Jones Ranch and Bryan; Friday, Oct. 16, Bazette, Rice, Roane, Independence and Powell. Each club will be informed as to the route to be taken. Miss V. Sneed asked that all club members attend if possible. Tours will begin at 10 a. m.

Mrs. Frank Shaw and Mrs. J. E. Gilmore, delegate to the state convention at Fort Worth gave reports on their trip. Mrs. Shaw discussed recreation at the convention and Mrs. Gilmore told of the business sessions. The speakers said the Home Demonstration clubwomen were doing more to help win the war than any other organization. There are 46,000 Home Demonstration clubwomen in Texas and all are working with this slogan in mind: "Work, Worship, Love and Faith."

Miss Sneed told members that in a meeting at College Station last week, Home Demonstration club agents and agricultural agents discussed plans for the future year's work. The Victory Demonstration's Pledge is the general topic for the year. Miss Sneed urged

very member to read her pledge again. The next council meeting will be October 17. Clubs are urged to keep their attendance up.

On Federal Grand Jury. Robert C. Smith of Blooming Grove is a member of the present U. S. District Court grand jury empaneled Monday by Federal District Judge T. Whitfield Davidson in Dallas.

The jury returned seven indictments Monday afternoon.

CORSICANA TIGERS MEET ENNIS HERE FRIDAY EVENING

FANS WILL WANT TO SEE TEAMS PLAYING UNDER NEW COACHES THIS YEAR

Several minor injuries are being reported as they prepare for the season's opener at Tiger Field Friday night at 8:15 o'clock with the Ennis Lions furnishing the opposition. These two old rivals played a 6-6 tie game in Ennis last year to open the season. That game was a District 10-AA conference tussle and counted a half game won and lost. This week's clash does not count in the standings as Corsicana is in the A bracket and Ennis is in the B division.

Plenty of interest will be shown however, as it will be the first time the majority of local enthusiasts will have an opportunity of seeing the Bengals in action under the coaching of Pete Allen, assistant here the past six years. Jimmie Gardner, long-time head basketball coach and assistant football coach, will be making his debut as head coach of Ennis. He was named coach early this week after M. V. Davidson resigned to go to Tyler High.

Kerens Bobcats Are Training for Their Opening Game Friday

KERENS, Sept. 24.—(Sp.)—Directed by Supt. G. H. Wilmon, who this year is also serving as Athletic coach, the Kerens Bobcats reported for training the first week of school some 20 strong. Following is the tentative schedule, which will be observed:

Sept. 25th, Trinidad at Kerens.
Oct. 2—Malakoff at Malakoff.
Oct. 9—Open.
Oct. 16—Frost at Kerens.
Oct. 23—Italy at Kerens.
Oct. 30—Bloomington Grove at Kerens.
Nov. 6—Hubbard at Hubbard.

New Manager For Safeway Store Here

E. J. Sebesta has arrived in Corsicana and assumed his duties as manager of the local Safeway Store. Mr. Sebesta comes to this city from Temple and has been connected with the Safeway organization for the past ten years. He is accompanied by his family.

Corsicana Girl to Enter Navy as Nurse

Miss Bernice Johnson, daughter of Mr. and Mrs. M. A. Johnson, Corsicana, Route 4, has received a call from the navy and will enter as a nurse within the near future. She will be given an ensign's commission upon entering and will be sent to one of the large naval bases.

Three Barry Boys Have Entered A. & M.

Mr. and Mrs. C. E. Watson, co-owners of James D. Frazzelle, Carroll Boswell and James E. Watson to College Station Sunday. The boys will enter A. & M. College for the 1942-43 semester and are planning to study engineering. They are ex-students of Barry High School.

Roane Soldier Has Returned Luke Field

Corporal Albert Chestine Frazier has just returned to Luke Field at Phoenix, Arizona, after a fifteen-day furlough spent with his parents, Mr. and Mrs. J. C. Frazier of Roane.

Your Guide For Overseas Mail-- Remember That Deadline: Nov. 1

Wide World Features.

WASHINGTON—Here are the Post Office Department's recommendations for Christmas mail to service men outside the United States:

1. Parcels, letters and cards should be mailed between Oct. 1 and Nov. 1—the sooner the better, regardless of where you live or where the article is going. Delivery cannot be guaranteed if it is postmarked after Nov. 1.

2. Gift packages should be marked "Christmas Parcel."

3. Parcels should not exceed 11 pounds in weight or 18 inches in length or 42 inches in length and girth combined. If possible, hold them to six pounds and the size of a shoebox.

4. Don't send food (except hard candies) or clothing. Service men have plenty of both. Don't send anything inflammable like matches or lighter fluid. Don't send intoxicants.

5. Wrap packages substantially but fix them so they may be easily opened for censorship inspection. Be sure that smaller packages, in side the big package, are tightly packed.

6. Postage must be fully prepaid. Consult your postoffice for Parcel Post rates. Better insure packages.

7. Such messages as "Merry Christmas," "Do Not Open Until Christmas," etc., are permitted if they do not interfere with the address.

8. Don't send cash gifts. Use money orders. Some countries have a law against importing foreign money, but money orders may be cashed anywhere.

9. The will of Mrs. Annie Crider, deceased, was admitted to probate in orders granted by E. D. McCormick, county judge, Tuesday.

The estate amounted to \$36,506.39 according to the inventory and appraisal filed by C. R. Leggett and Arthur Leggett, nephews, independent executors, consisting of lands and cash at Dawson. The will provides for a monument not to exceed \$5,000, \$2,500 for a fund to care for her cemetery lot in Dawson, and a similar amount to the Dawson Cemetery Association.

Her husband, J. O. D. Crider, is left 151 acres of land during his lifetime, and the residue of the estate goes to the Methodist church institutions.

The will of W. M. Layton, deceased, was admitted to probate in orders entered by E. D. McCormick, county judge, Tuesday.

Lexie Layton was named administrator.

The commissioners' court finished its work as a board of equalization Wednesday afternoon, and adjourned Thursday morning.

Marriage License.

Leslie C. Carter and Yvonne Robinson.

W. R. Baltazar and Jeffie Owen Johnson.

W. E. Marlin and Thelma Frances Lennon.

Warranty Deed.

Mrs. Mary Cook to Mrs. Lula Crouch, lots 3 to 8, inclusive; lots 14 to 2, inclusive; lots 28 to 40, inclusive. Southland Addition, Frost, \$10 and other considerations.

P. O. Crider, et ux, to A. Robert White, et ux, Lot 6, Block 427-A, Max Almond Addition, Corsicana, \$1,800.

M. A. Tekell, et al, to Burlingame J. Butler, et ux, Lot 1, Block "A," Neece Addition, Corsicana, \$1,400.

The First State Bank of Corsicana, Texas, to Burlingame J. Butler, Lot 2 and part of Lot 3, Block "A," Neece Addition, Corsicana, \$125.

E. E. Pike et ux to Mrs. Ethel Cannon, a lot 45x102 feet in block 484, Corsicana, \$2,550.

L. L. Wesley et ux to W. L. Thompson, lot 12, block 296, Corsicana, \$500.

Sheriff's Office.

One was arrested for Wortham officers on a theft charge and one was arrested for the Dallas sheriff on a contempt of court proceeding. Sheriff Cap Curington reported Wednesday.

Justice Court.

One was fined for road law infractions by Judge Hayden Paschall.

One was fined by Judge Pat Geraughty on a theft charge.

Two were fined for road law infractions by Judge Hayden Paschall and one was fined for speeding by Judge Pat Geraughty.

Two were fined on speeding charges by Judge Hayden Paschall.

A. & M. Enrollment Expected Reach 7,000

COLLEGE STATION, Sept. 22.—(AP)—That Texas A. and M. College's all-time enrollment record of 6,975, set last year, will be surpassed, appeared certain today as new students continued to arrive for freshman indoctrination week.

Already an estimated 1,600 new students were here, and several hundred upper-classmen who did not attend the summer session are due to return.

These, in addition to the 5,400 registered last June, are expected to push the enrollment for the year above the 7,000 mark.

Life-Long Resident Of Blooming Grove Died There Tuesday

K. Hartley, aged about 55 years, life-long resident of Blooming Grove, died suddenly at his home in Blooming Grove Tuesday morning.

Funeral rites were held Wednesday afternoon at Blooming Grove.

Surviving are his wife, a teacher in the Blooming Grove schools; two daughters, Mrs. Juan Garcia and Miss Cora Hartley; two sisters, a brother and other relatives.

Mrs. Dan Foster and Children Locate Here

Mrs. Dan H. Foster and children, Dorothy Ann and Dan, from Hawaii, who are making their home in Corsicana for the duration, are now pleasantly located in Mrs. Carrie Johnson's apartment on West Third Avenue. Dorothy Ann and Dan are enrolled in Sam Houston School.

Mrs. Foster and children and Mrs. Jack Hughes and son made the trip from Hawaii together and report they had a very interesting voyage. Mrs. Foster and children visited in the M. E. Wallace home before taking an apartment.

Jack Hughes, formerly of Corsicana and Mr. Foster are employed by the same company on the island of Kauai, northernmost island of the Hawaiian group.

Three Barry Boys Have Entered A. & M.

Mr. and Mrs. C. E. Watson, co-owners of James D. Frazzelle, Carroll Boswell and James E. Watson to College Station Sunday. The boys will enter A. & M. College for the 1942-43 semester and are planning to study engineering. They are ex-students of Barry High School.

Roane Soldier Has Returned Luke Field

Corporal Albert Chestine Frazier has just returned to Luke Field at Phoenix, Arizona, after a fifteen-day furlough spent with his parents, Mr. and Mrs. J. C. Frazier of Roane.

Corporal Frazier formerly attended Corsicana High School and before his induction into the army was employed at the American Well and Prospecting Company. He has been with the 34th School Squadron at Luke Field since March.

Leaves for Drew Field.

Capt. John Henry Brown, Jr., left Wednesday for Drew Field, Tampa, Florida, after spending a 10-day furlough with his parents, Mr. and Mrs. J. H. Brown, Sr.

RITES WEDNESDAY FOR J. E. CLARKE; BURIAL IN ENNIS

ENNIS, Sept. 23.—Funeral rites for J. Frank Clarke, 61, who died Tuesday morning, were held Wednesday afternoon at 4 o'clock from the Keever Funeral chapel. Burial was in Myrtle cemetery. The rites were conducted by Rev. Hugh R. Baker, pastor of the Tabernacle Baptist church.

A native of Barry, Navarro county, Mr. Clarke had resided in Ennis since 1891. He was a retired farmer and former city marshal here.

Surviving are his wife, a daughter, Mrs. I. G. Moore, Grand Prairie; a sister, Mrs. H. R. Davis, Ennis; a brother, J. A. Clarke, Dallas; and a number of other relatives, including cousin, W. B. Gordon, Corsicana.

Ned Brownlee at Officers School

Robert Ned Brownlee, son of Mr. and Mrs. C. J. Brown of Corsicana, is now attending Officer's Training School at Fort Benning, Georgia. Mr. Brownlee was inducted into the Army as a private on March 20 at Fort Sam Houston and sent to Camp Barkeley for his 13 weeks basic training, where he was assigned to the 357th Infantry, 90th division.

On May 4, he was promoted to the rank of corporal and on June 1 to the rank of Sergeant. He was sent to Fort Benning on August 26 and began his thirteen weeks training to be commissioned as a second lieutenant.

Mrs. Brownlee, the former Esther Mae Tarver of Corsicana and Austin, is residing with her mother, Mrs. W. A. Tarver, in Austin where she is employed as secretary to the regional administrator of the National Youth Administration. She hopes to join Mr. Brownlee upon completion of his training course at Fort Benning.

Bud Warren, Former Cage Coach, Is Now Coast Guard Officer

Bud Warren, well known sports figure in this section, is now a petty officer, second grade, of the U. S. Coast Guard, Pensacola, Fla. He is here on a 10-day furlough and will be accompanied back to Florida by his wife, a Navarro countess.

Warren is remembered as a basketball coach and official of note. He coached the Bryan High sextette to honors for several years, then moved to Bynum, Hill county, for a time and later was girls' cage coach at Ennis. Warren formerly refereed many games of the Corsicana High Tigers at the junior high gym court during the time Jimmie Gardner and Bruce Jeffers were head cage instructors.

Warren left the coaching profession at Ennis to go with the Texas highway patrol before entering the Coast Guard.

Nephew Corsicana Couple Killed in Airplane Crash

Mr. and Mrs. M. A. Johnson, Corsicana Route 4, have received word of the death of their nephew, Lieut. D. M. Steele, who was killed in the crash of an army plane near Greencastle, Indiana, Sunday.

Two other army flyers were killed in the crash, Lieut. P. G. Murphy and Capt. J. M. Steele. Lieut. Steele received his training at Stockton, California and was located at Baer Field, Ft. Wayne, Indiana.

His mother, Mrs. Swannie Steele, Burbank, California, will be remembered here as Miss Swannie Johnson.

Former Bengal Guard With Army Eleven

James Nelson, former Tiger football lineman, is now playing guard on a California Army team. He is in the tank corps, having enlisted early this year.

Nelson was a regular guard on the 1933, 1934 and 1935 football teams of Corsicana High School.

RITES WEDNESDAY FOR J. E. CLARKE; BURIAL IN ENNIS

ENNIS, Sept. 23.—Funeral rites for J. Frank Clarke, 61, who died Tuesday morning, were held Wednesday afternoon at 4 o'clock from the Keever Funeral chapel. Burial was in Myrtle cemetery. The rites were conducted by Rev. Hugh R. Baker, pastor of the Tabernacle Baptist church.

A native of Barry, Navarro county, Mr. Clarke had resided in Ennis since 1891. He was a retired farmer and former city marshal here.

Surviving are his wife, a daughter, Mrs. I. G. Moore, Grand Prairie; a sister, Mrs. H. R. Davis, Ennis; a brother, J. A. Clarke, Dallas; and a number of other relatives, including cousin, W. B. Gordon, Corsicana.

Ned Brownlee at Officers School

Robert Ned Brownlee, son of Mr. and Mrs. C. J. Brown of Corsicana, is now attending Officer's Training School at Fort Benning, Georgia. Mr. Brownlee was inducted into the Army as a private on March 20 at Fort Sam Houston and sent to Camp Barkeley for his 13 weeks basic training, where he was assigned to the 357th Infantry, 90th division.

On May 4, he was promoted to the rank of corporal and on June 1 to the rank of Sergeant. He was sent to Fort Benning on August 26 and began his thirteen weeks training to be commissioned as a second lieutenant.

Mrs. Brownlee, the former Esther Mae Tarver of Corsicana and Austin, is residing with her mother, Mrs. W. A. Tarver, in Austin where she is employed as secretary to the regional administrator of the National Youth Administration. She hopes to join Mr. Brownlee upon completion of his training course at Fort Benning.

Bud Warren, Former Cage Coach, Is Now Coast Guard Officer

Bud Warren, well known sports figure in this section, is now a petty officer, second grade, of the U. S. Coast Guard, Pensacola, Fla. He is here on a 10-day furlough and will be accompanied back to Florida by his wife, a Navarro countess.

Warren is remembered as a basketball coach and official of note. He coached the Bryan High sextette to honors for several years, then moved to Bynum, Hill county, for a time and later was girls' cage coach at Ennis. Warren formerly refereed many games of the Corsicana High Tigers at the junior high gym court during the time Jimmie Gardner and Bruce Jeffers were head cage instructors.

Warren left the coaching profession at Ennis to go with the Texas highway patrol before entering the Coast Guard.

Nephew Corsicana Couple Killed in Airplane Crash

Mr. and Mrs. M. A. Johnson, Corsicana Route 4, have received word of the death of their nephew, Lieut. D. M. Steele, who was killed in the crash of an army plane near Greencastle, Indiana, Sunday.

Two other army flyers were killed in the crash, Lieut. P. G. Murphy and Capt. J. M. Steele. Lieut. Steele received his training at Stockton, California and was located at Baer Field, Ft. Wayne, Indiana.

His mother, Mrs. Swannie Steele, Burbank, California, will be remembered here as Miss Swannie Johnson.

Frost Business Men are Picking In Cotton Crop

FROST, Sept. 23.—The labor situation in this city is becoming serious. The school has dismissed for this week, store managers are talking of closing and women's clubs are advocating going to the fields to help pick one of the best cotton crops in years.

The mayor, Dr. E. L. Evans, and family were picking cotton Monday, and Mike Campbell, editor of the Frost Enterprise, also is picking. J. B. Shaw, businessman, is picking over 200 pounds a day. Cotton is averaging about a half bale an acre. Cotton pickers are scarce and the fields are white.

Sgt. Joseph Norwood Is Visiting Parents

Sgt. Joseph E. Norwood of Atlantic City, New Jersey, is visiting his parents, Mr. and Mrs. J. E. Norwood of the Tupelo community. Sgt. Norwood is with the Air Force and is stationed in the Madison Hotel on the boardwalk. He is stationed in the office at the replacement center.

Sgt. Norwood finished high school in Corsicana in 1937, attended business college in Tyler and received a civil service appointment as senior typist in the Base Hospital at Fort Sam Houston for a year. He joined the Army Air Force in November 1941 and was stationed at Shppard Field where he did office work until July when he was sent to Atlantic City.

CORSICANA, TEX., SEPT. 25, 1942

RECIPE FOR VICTORY

Surely Donald Nelson, war production chief, is the man for the job of leading the battle of industry to win this war. On Labor Day he kindled a fire in the hearts of millions.

"Be tough with yourself!" was his word to Labor. It was also his word to employers. And both Capital and Labor cheered him to the echo.

He granted that men have a right to strike, to lay off. But how long will such rights last if they are abused? Look at what happened in the enslaved countries. Free men must fight on the production lines as in battle.

Union leaders agree to that. Their followers must produce steadily and fully. Management must also toil and keep its pledges. There is no dictatorship in this country. "We must all ourselves do it." Human rights, Capital rights, must be maintained. Only Hitler can take away the rights of Labor. Beat him, smash his system, and Labor has its rights forever.

Everything, for all Americans, is bound up in this war. No group need fear working itself out of a job by over-production. Unity in the production army must equal the unity of the fighting forces. Good ideas must be taken from everybody. The nation must use all its resources. There must be no fighting merely "against something" but the fighting must be "for something." That means the lives and the future of all Americans. It is a people's war, not a government's war, fought as that peril may be overcome and all shall inherit the riches of this modern world.

So "Full Speed Ahead" is the word. There opens up, beyond all this peril and turmoil, the noblest opportunity ever revealed to any nation. The vision should not fail.

SNEAK-PUNCH FIGHTERS

Bill Cunningham, an American newspaper man, quotes a missionary as follows, regarding Japanese characteristics: "He makes more noise than the Chinese, and puts on a better show starting out, but he's jittery, volatile and sneaky. He banks on lying, conniving, bluff and surprise, and when he fights, it's really not so much from inner courage as acting a self-glorifying part in a show. If the show goes well, he sails into the start. If it starts to go against him, he has no inner strength to sustain him."

Mr. Cunningham decided to check this estimate with that of a veteran policeman at Los Angeles, who said: "They're as yellow as his hides. There isn't one of them who isn't afraid of the white man, mentally, physically and morally. They'll pick on a cripple and gang anybody they can, if they think the odds are in their favor. But they won't stand up in a fight, and if they can't sneak a punch they won't start."

It seems so from recent American experience. And the report is reassuring. But they can't all be like that. And anyhow, the only safe way is to pretend they're the supermen they profess to be, and take no more rash chances.

To be called a stay-at-home was once a reproach. Now it becomes a badge of merit.

Edgar A. Guest

The Poet of the People

ABOUT HUSBANDS.

When the honeymoon is over and you've settled down for life, He to be your patient husband, you to be his patient wife, Don't expect him to continue as the days go swiftly by. That touch of charm and glamour which attracted first your eye, Man's a very noble creature when he's at the door to woo. But a husband's something different, which is very sad, but true.

When you've got him as a husband, and your frown he doesn't fear, Faults you never saw in courtship, shall undoubtedly appear. All alone some quiet evening when he's settled with a book, You will hear a curious clicking and you'll turn at him to look. And 'twill sadden you and madden you, and almost make you ill, To discover he's a chewer of a toothpick made of quill.

When the home is nicely settled and you've made an evening date, That's the time the man you've married will come home for dinner, late. He was always prompt when courting, but a husband you will find Is a fellow most forgetful and tardiness inclining. He'll have various appointments planned for making business deals And he'll think them more important than being punctual for meals.

If he leans at all to neatness he'll waste hours on being trim, But if careless of appearance give up hope of tidying him. Though he did his best to please you in the days he came to woo.

When you're married you'll be maddened by the silly things he'll do. Which is why to get accustomed to a husband's ways, my dear, We are told by all the experts always takes a solid year.

AMERICANS AT THE FRONT

Entering the last war in April, 1917, most Americans did not expect to see large American armies fighting in Europe. Our contribution to the Allies, in the popular mind, was to be increased production of arms, and, of course, lavish loans of money. The Allies would do the fighting, and the U. S. A. would simply provide the wherewithal.

It did not work out that way. Before many months the German advance and the heavy allied losses made it imperative to get every American soldier possible into the front lines. It was their presence and the assurance of a constant supply of more than, more than any other factor, broke the German lines and won the war.

Now the government has appreciated the situation beforehand. That is why so many millions of men are going to camp. For most of them, active fighting has not yet come, but it will. There is an old saying, "as sure as shooting." Shooting, and the American soldier at the front, are two prospects which may be regarded as certainties.

OVER-BUYING

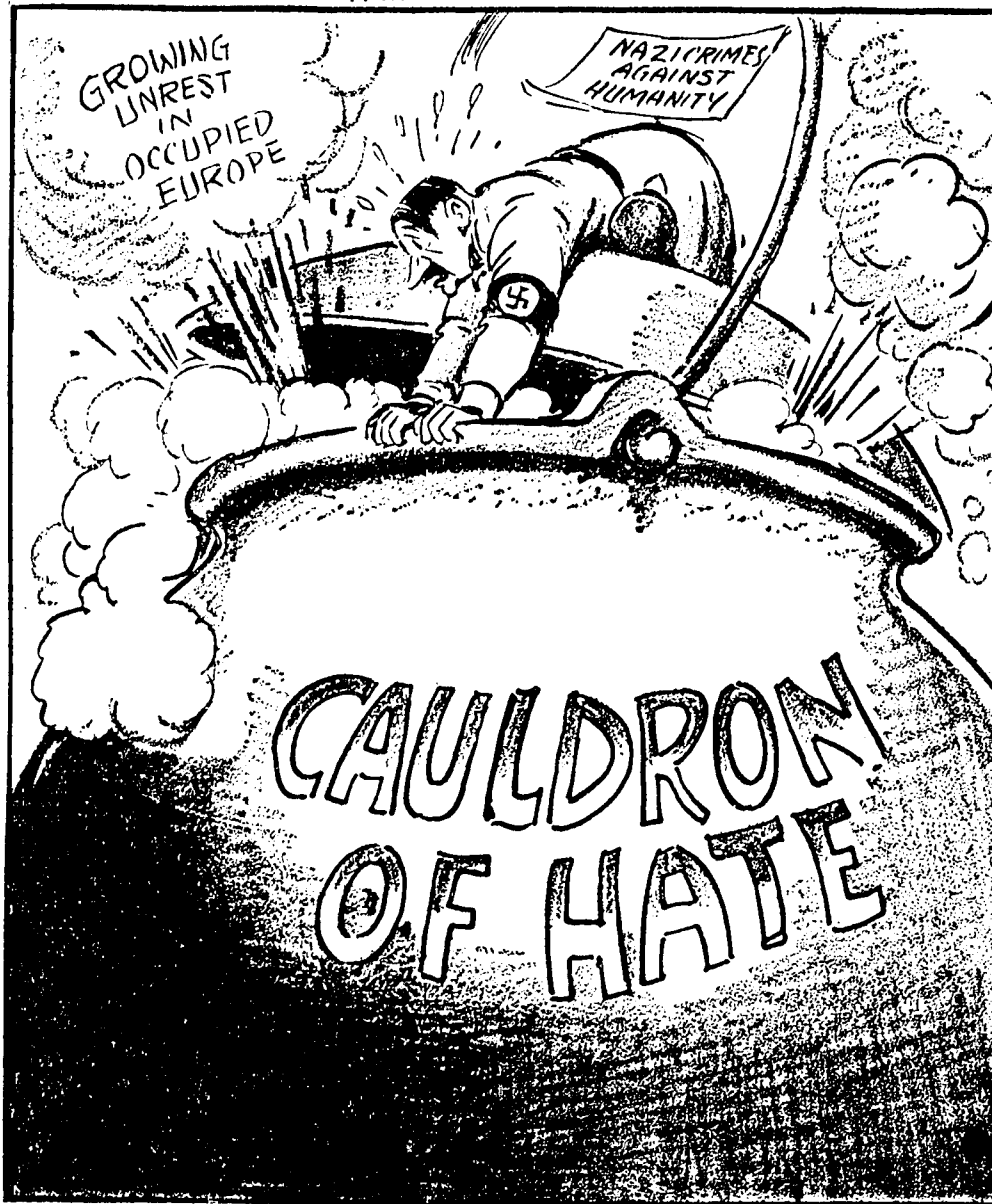

A boy is reported as telling his young friends: "My mother read in the paper that they're going to ration soap, so she's going to stock up on it." Very likely she went ahead doing it. And some of those kids probably went home and told their mothers about it, thus putting the same idea into their heads. It is surprising how such things spread, and how many people think it's all right, or even commendable, for them to start filling their kitchen shelves, and even overflowing into the basement, when they hear rumors of coming scarcity.

Such procedure is not sporting. It is an effort to take unfair advantage of other people. Both patriotism and common sense should prevent hoarding. There is, and will continue to be, enough of the necessities of life for all, if everybody buys normally without trying to get ahead of friends and neighbors. Over-buying tends to bring on the very scarcity that everybody wants to prevent.

TIRE SANDALS

The women have for some time been wearing sandals. Now automobile tires are going to do likewise. A big rubber company announces the manufacture of tire sandals, to be woven, treated and wrapped around tires. They will add 2,500 to 3,000 miles to the life of the tires.

THE "INSIDE STORY"**JERRY SADLER SUIT AGAINST JESTER WAS DISMISSED BY JUDGE**

DALLAS, Sept. 23. (AP) Holding there was no constitutional question involved, Federal Judge W. H. Atwell yesterday dismissed Jerry Sadler's suit for a permanent injunction to restrain Benford Jester from filling Sadler's unexpired term as State Railroad Commissioner.

The court refused jurisdiction, declaring there was nothing to show that Sadler had been deprived of any constitutional right by Jester's appointment to the office. Judge Atwell said there was no violation of the fifth amendment to the constitution protecting a citizen against the federal government, nor under the fourteenth amendment which guarantees citizens against wrongful acts of the state.

If Sadler had a remedy, the court held, it lay in the state courts, but it appeared that Sadler had no recourse.

Jester won the democratic nomination as a candidate for Sadler's unexpired term, and shortly afterward was appointed to the post by Gov. Coke Stevenson.

Sadler, now an Army first lieutenant stationed in New Orleans, and Jester, were in court to hear the decision.

Sadler filed the suit after Jester assumed the duties of the office. Sadler had occupied the office of Railroad Commissioner since resigning the post by Gov. Stevenson.

The court held that Sadler voluntarily had resigned the Railroad Commission and taken an Army commission.

Sadler declared during the recent primary elections that he had the right to withdraw his resignation after he had submitted it to Governor Stevenson. The State Democratic executive committee differed with that view and certified a number of candidates for the office.

Had Right to Serve. In arguments before the court Sadler's counsel declared that Sadler had every right to serve as an officer without resigning the Railroad Commission.

Sadler had a right under the state constitution, counsel said, to serve as a member of the Reserve Corps. The court ruled that under a Texas statute a railroad commissioner could not hold any other office.

"The statute x x x suggests an impediment to the plaintiff's right to recover," the court said. "He became an army officer. One cannot serve in such a capacity without breaching the statute. He did not become an officer in the Reserve Corps. He was commissioned under a different act with certain benefits of a reserve officer."

"The most that can be said for the plaintiff's cause is that he was chosen to public office. While he was in that office he sought and received a different office in the national sphere."

CAMPAIGN FOR COLLECTION OF SCRAP METAL WILL BE PUSHED THROUGHOUT NAVARRO COUNTY

With the scrap metal shortage verging on a crisis, Navarro county, in a drive to collect scrap metal, announced plans Wednesday for an even bigger scrap drive to be undertaken on an even broader scale than the last.

The campaign will be inaugurated Monday, Sept. 28, and continued through Oct. 17. Every individual, organization and transportation facility will be enlisted in the drive.

This is the second full scale campaign undertaken in this county. Considerable attention is being given organization arrangements which will be continued for the remainder of this week. The drive will receive added impetus from the active co-operation of all schools in the county. Salvage depots will be established on every campus.

A general county-wide teachers' meeting will be held Monday night at 8 o'clock in the auditorium of the Corsicana Junior high school. Final plans for the school collection will be considered along with the comprehensive school program.

J. C. Watson, county superintendent, is in charge. Chairman Prince called upon all truck owners Wednesday to volunteer the use of their vehicles in the campaign. He stressed the urgency of the scrap shortage and pointed toward declining production schedules as a result.

Rallying to the aid of the county committee, the Corsicana Lions Club pledged full cooperation in the drive at its noon luncheon meeting Tuesday and other local service clubs are expected to follow suit within the next two days.

The membership of the Lions Club, composed of local business leaders and executives, are planning to do coveralls and engage in the actual scrap collection.

In rural sections, all guns will be designated as salvage depots. All metal will be paid for at the highest current prices. The triangular scrap collection from the army will continue to be used as the Corsicana depository.

Members of the county scrap committee.

25th Anniversary Year

A NATION-WIDE FOOD SHORTAGE

Those in position to know predict a definite food shortage in the United States in 1943. The Army and Navy alone will need huge supplies. One item alone is seventy-five million dozen eggs for the armed forces and for shipment abroad to our allies within the next few months.

Several times in the past few weeks we have urged farmers to give thought to the raising of poultry as a means of cutting down living expenses and adding to their cash income. We would now like to urge them and even persons living in town to consider poultry raising and the planting of large gardens as a means of helping themselves and also helping the war effort.

STATE NATIONAL BANK of Corsicana

MEMBER FEDERAL RESERVE SYSTEM AND FEDERAL DEPOSIT INSURANCE CORPORATION

NUMBER CADETS IN TRAINING AT LOCAL FIELD ON INCREASE

A prepared roster of aviation cadets who arrive recently at the Corsicana army primary training school of the Air Activities of Texas was issued today by army officials.

While no figures can be released on the actual size of the unit, it was revealed that the new class, 43-C, numbered approximately the same as the last complement which is now taking the second phase of primary training at the field.

Number of cadets in each class has constantly increased since the local school began operations over a year and a half ago. The last two classes have been among the largest ever assigned the field.

Previous Training. Of the present group, thirteen have had previous flying training under Civilian Pilot Training programs. Eight of the cadets are officers in the regular army—all second lieutenants.

An idea of common American names can be secured from the score of duplicates noted in the roster. With the youths coming from all sections of the nation, such duplications give a general picture of average family names in the United States. Among the names are Adams, Bell, Black, Bird, Brown, Elliott, Graves, Hill, Johnson, Jones, Taylor, Thompson, Walker, Williams, Wilson, Wolfe and Wright.

The usual multiple of Smiths was noticeably absent. Brown headed the number listed under each title with four cadets, none related, answering to that name.

Improvements Made. Several improvements are being made near the hangars at the field, including the laying of a concrete ramp and the rebuilding of the main ramp, which is sodded.

The concrete ramp will be used principally for warming the planes preparatory for flight. However, in case of inclement weather, it can be used as a regular flight base. The school recently purchased four large buses to transport the cadets to and from the surrounding auxiliary fields. The buses, painted a brilliant red, are being used exclusively for this purpose.

Officer Personnel. Lieut. Allen S. Key has just returned to the local school from Brooks field where he has been attending an officers school. His course of instruction also included classes at Kelly Field, San Antonio.

Twelve regular army officers are now assigned to the Corsicana field in the administration capacity. They include: Major Stanton T. Smith, commandant; Capt. Truman C. Abbott, Capt. H. C. Dickerman, (flight surgeon); First Lieutenants L. S. Dyer, E. L. Myers, E. J. O'Neill; Second Lieutenants G. C. Lennox, Adler, Henderson, R. H. Hunt, and A. S. Key.

Named School Postmaster. KERNES, Sept. 22.—(Spl.)—Word has been received by Kernes relatives and friends of the appointment of Mrs. Hughlet Willard to the office of postmaster at the South Plains flying school at Lubbock. Mrs. Willard is a former Kernes girl and will be remembered as Miss Hughlet McCluney. She is a sister of E. L. and Finis McCluney.

Dr. E. W. Solomon, Dean of Methodism Of Texas, Passes

LIBERTY, Sept. 24.—(AP)—Dr. E. W. Solomon, dean of the Texas Methodism, died Tuesday. He was 91 years old.

Funeral services for Dr. Solomon, who died after a brief illness, were held Wednesday at 10 a.m. at the Dayton Methodist church.

Interment was in Lufkin, his former home, at 3 p.m.

Dr. Solomon on Aug. 12 celebrated his 81st birthday anniversary and the 70th anniversary of his ordination as a Methodist minister. He preached a 45-minute sermon on that occasion.

His former pastorates and presiding elderships include what is now the First Methodist Church at Houston, Corsicana, Lufkin, Texarkana, Galveston, Beaumont, and Tyler.

Surviving are his widow; one daughter, Mrs. W. T. Jamison, Dayton; four sons, E. W. Solomon, Jr., Tyler; E. W. Solomon, Georgetown; W. W. Solomon, Bryan; and Hal Solomon, Dayton; ten grandchildren and three great grandchildren.

Miss Jennie Ree Hayes, former resident of Corsicana, has accepted a position in the First National Bank in Dallas.

"WAR CONFERENCE" COTTON INTERESTS CALLED HILLSBORO

WACO, Sept. 22.—(Spl.)—A "War Conference" of the cotton interests of Texas has been called in Hillsboro on Saturday, October 3, by Burris C. Jackson, chairman of the State-Wide Cotton Committee of Texas.

"Cotton is playing a vital role in winning this war, and the problems of cotton must not be neglected," Jackson said in issuing the call for the meeting, which will be attended by a large number of leaders from every part of the Cotton Industry. Educational institutions and regional chambers of commerce will also have representatives present at the conference.

Cotton is next in importance to steel for the United Nations to conduct the war, cotton leaders point out, and it is essential that the government and the industry both give constant attention to the supply and quality of the product.

Former Kerns Man in Hawaii. KERNES, Sept. 22.—(Spl.)—Second Lieut. David R. Sherrill, former Kerns man, who had made his home in Honolulu the past few years, has been heard from in Honolulu. Hawaii. Lieut. Sherrill is the youngest son of the late Mrs. Lula Sherrill.

ALASKAN HIGHWAY WILL BE READY FOR USE DECEMBER 1ST

WASHINGTON, Sept. 24.—(AP)—The Alaskan highway will be ready for use about Dec. 1, Secretary Stimson announced today, and traffic is expected to steadily grow over its 1,600 miles until spring thaws make it impassable in April and May.

Not only is the highway being completed months ahead of schedule, Stimson said, but instead of the contemplated rough "pioneer" road, the "Alaskan Highway as it is now being constructed by the corps of engineers is a well-graded, well-drained truck road for practically its entire length and will afford two-way traffic over many long stretches."

The highway, beginning at Dawson Creek, British Columbia, runs northwest to White Horse, Yukon Territory, and then crosses the Alaskan boundary, terminating at Fairbanks. It connects with the rail and highway systems of Southern Canada and the United States at Dawson Creek, and not only provides a motor highway to Alaska, but serves also as a feeder route for various military airfields which previously had to depend on air transport alone for all supplies.

Gasoline Hoarders Warned About Fire Hazard in Action

AUSTIN, Sept. 24.—(AP)—State Fire Insurance Commissioner Marvin Hall today warned against the hazards of hoarding excess supplies of gasoline and asserted the indiscriminate use of gasoline in Texas is becoming a criminal tragedy.

"The threatened nationwide rationing of gasoline will cause many to cast aside safety," Hall pointed out in a statement. "This practice is not only dangerous but can result in a fire insurance policy being voided if a fire results from the stored gasoline."

Fire deaths in Texas have reached a total of 218 this year, he stated.

Barry H. D. Club Met on Tuesday

The Barry Home Demonstration club met Thursday, Sept. 17, at the home of Mrs. A. T. Watson. After the business session, a program on "Inflation Comes Back To The Farm" was presented with Mrs. Percy Varnell in charge.

Also discussed were topics on "What We Can Do At Home for the War Effort" by Mrs. L. C. Boswell, Mrs. Joe Worsham and Mrs. Herbert Bush.

Refreshments were served to 10 members. The next meeting will be on Oct. 1 at the home of Mrs. Joe Worsham.

Germans Report Sinking Warships Many Transports

BERLIN, (From German Broadcasts), Sept. 24.—(AP)—A special German communiqué reported today that Nazi submarines had sunk three destroyers, an auxiliary cruiser and five transports in an attack on an allied convoy between Spitbergen and Iceland.

(Neither the reported attack on the convoy nor the German claims of losses inflicted were confirmed by any other source. Previous German claims of allied ship sinkings on the Arctic supply route have been termed "grossly exaggerated" by the British.)

The announcement said the convoy described as British, was bound from Soviet Russia to British and American ports and "consisted of a large number of protecting vessels than transport vessels."

The Germans also reported their submarines had sunk 13 allied merchant ships totalling 75,000 tons and a corvette in attacks on allied supply lines in the Atlantic, off the African coast and in the Caribbean.

Local Delegates Legion Auxiliary Returned Home

Mrs. Andrew Steele, Mrs. Edwina Milam and Mrs. Roy Patrick, who have returned from the National American Legion Auxiliary convention in Kansas City, report an enthusiastic meeting. They went with Mr. Steele who was one of the delegates from Texas to the Legion convention.

Mrs. Steele, delegate from the Texas Auxiliary, said highlights of the convention included talks by Mrs. C. C. Culpepper, director of the WAACs, and Miss Mary Bailey, from the Chicago procurement office of the WAVES. Both of these women in full uniform, explained in detail their organizations, qualifications, ranks and duties.

Other speakers enjoyed by Auxiliary delegates were Lord and Lady Frazier of England. Col. Frazier, who is a member of the House of Commons, gave a realistic picture of England and war, and Lady Frazier, who is lieutenant colonel staff commandant of the British Red Cross, told of the work done by her group. The group heard Paul V. McNutt in a joint session with the Legionnaires. Another highlight of the program included the visit to the Soldier Memorial in Kansas City, where leaders of the Allied Nations met in 1921 to pay tribute to the war dead. An appropriate ceremony was held at the memorial.

All convention sessions of the Auxiliary were held in the beautiful municipal auditorium. Mrs. Steele said, Mrs. Marie Manforth was named Southern division president at the session.

P.T.A. Council Will Sponsor Instruction

The Navarro County Council of Parents and Teachers will sponsor a School of Instruction on Saturday, Oct. 3, at Kinloch House beginning at 10:30 a. m. Luncheon will be served at 12 o'clock noon.

Mrs. J. E. Davis of Dawson, third vice president at the State Congress will conduct the school. The complete program will be announced next week.

The school was scheduled to be held on Sept. 26 and all women are asked to take note of the change.

Cemetery Association Will Meet Friday

The Hamilton-Beeman Cemetery Association will meet Friday afternoon at 3:30 o'clock at the home of Mrs. Graham Dickson on Haven avenue.

All members are urged to attend the very important session, according to announcement by Mrs. C. M. Gillespie.

Leave For Austin. District Judge and Mrs. Wayne R. Howell left Thursday for Austin.

Judge Howell will attend the district and appellate judges conference in Austin Friday and Saturday and has been assigned to hold court next week in one of the Austin district courts.

FLYING TIGER AND AUSTIN GIRL WED IN QUIET CEREMONY

AUSTIN, Sept. 24.—(AP)—Cupid did with one shot what the Japanese failed to do with many—downed "Kirk of San Saba" of Flying Tiger renown.

Pretty, blue-eyed Nor a Cate and Matthew W. Kuykendall, late of the AVG, announced they were married last night after a four-year courtship which started on a blind date and which, they both admitted, resulted in the well-known love at first sight.

Mrs. Kuykendall is a former Austin girl whose parents, Mr. and Mrs. W. S. Cate, live in Houston. Kirk, whose exploits with General Claire L. Chennault's air dog, one struck terror into the hearts of Japanese airmen, came home in the sale of \$47,000 worth of war bonds at a rally Tuesday night.

Yesterday he came to Austin with his twin sister, Ida Jeanne and his father, W. S. Kuykendall of San Saba. The marriage ceremony was read by the Rev. Harry E. Payne of the North Side Church of Christ.

Kirk and his bride planned to leave this morning for Houston, and tomorrow morning for New York. He said he had taken a job with the American Export Airlines.

Kirk is 23 and his bride is 21. She attended Texas State College for Women at Denton and Kuykendall was a student at Texas A. and M. before he went to Randolph Field to win his wings.

Said Mrs. Kuykendall of the days when her husband-to-be was downing Japanese planes:

"I didn't worry when he was flying. I knew he could take care of himself and the Japs, too. But when I knew he was coming home, I was terribly afraid something might happen to him on the way."

Kirk was reluctant to talk about his four wounds, and the scar on his face to show for one of them. "I guess we were pretty bored," he said. "Between the flying there were days when we stayed on watch from two or three o'clock one day until six o'clock the next, just waiting. We couldn't tell where they were coming from, or when, or how many."

Kerens Methodist SS Class Names Officers

KERENS, Sept. 24.—(Spl.)—The Workers class of the Methodist Sunday school met on Wednesday afternoon in the home of Mrs. August Hill with Mrs. Alvin Inman co-hostess. Mrs. Andrew Talley, teacher, opened the meeting with prayer, followed by Mrs. Natalie Kirkland who read the scripture lesson.

Mrs. C. C. Sessions as leader of the day talked on "Investing in Life" and was ably assisted by Mrs. J. C. Clayton, and Mrs. Robert Lewis.

During the business session the following report of the nominating committee was adopted.

Program committee—Mrs. J. C. Clayton, Mrs. August Hill, Mrs. Truman Burroughs, Mrs. T. M. Shelton, Jr.

Teacher, Mrs. Andrew Talley; assistant teacher, Mrs. G. H. Sanders; president, Mrs. E. H. Gray; vice president, Mrs. Russell Baker; secretary treasurer, Mrs. Natalie Kirkland; reporter, Mrs. Tillman Reed.

Business committee—Mrs. T. L. Whorton, Mrs. Lester Shelton, Mrs. Herman Inman, Mrs. Jack Fite, Mrs. Bill Edwards.

Flower committee, Mrs. T. L. Whorton, chairman.

Following the program and all business, delightful refreshment plates were attractively served.

Britons to Eat Less.
EDINBURGH, Scotland, Sept. 24.—(AP)—The forecast that Britons will eat even less in the next year than in the first three years of the war so that their armies may attack in Europe was made by Food Minister Lord Woolton today.

Senate Finance Committee About Through Tax Bill

WASHINGTON, Sept. 24.—(AP)—The senate finance committee virtually completed consideration of the new revenue bill today by voting to freeze social security taxes at their present levels of 1 per cent on employers and 1 per cent on employees.

The effect of the amendment, if adopted finally by congress, would be to stay an increase to 2 per cent on employers and a like amount on employees which automatically would go into effect January 1.

The committee also enlarged the field of a joint congressional committee to investigate the desirability of compulsory savings by instituting the group to look into the possibility of a "pay as you go" income tax collection system.

Final consideration of the revenue bill is expected a week from tomorrow.

On motion of Senator Vandenberg, the committee voted 12 to 1 to write in an amendment freezing social security taxes during 1943 at their present levels of 1 per cent on employers and 1 per cent on employees.

The effect of the amendment, if adopted finally by congress, would be to stay an increase to 2 per cent on employers and a like amount on employees which automatically would go into effect January 1.

The committee also enlarged the field of a joint congressional committee to investigate the desirability of compulsory savings by instituting the group to look into the possibility of a "pay as you go" income tax collection system.

OCTOBER QUOTA OF PASSENGER TIRES FOR TEXAS LARGER

FORT WORTH, Sept. 24.—(AP)—Texas' new passenger tire quota for October will be 32 per cent above September's, but quota for all other classes of tires will be cut by varying percentages, the state Office of Price Administration announced today.

The date will receive 3,694 new passenger tires to be apportioned among the counties next month, in addition to 4,307 grade 2 tires for distribution among war workers.

The grade 2 quota is a decrease of 17 per cent from September. Available passenger tire retreads will number 19,823, a drop of 8 per cent, and the passenger tube quota will be 14,228, a decrease of 8 per cent.

New tires for trucks, farm tractors, and other purposes will number 14,353, a 22 per cent decrease, and retreads 15,088, a decrease of 17 per cent. The truck tube quota of 15,036 will represent a decrease of 21 per cent from September.

A total of 2,126 new automobiles will be available for rationing in October, against 2,090 in September.

The increase in the new passenger tire quota was due to inclusion of taxicabs in the list of eligibles for new tires and retreads with track-type camelback.

Export Silver Coins Banned by Mexico

MEXICO CITY, Sept. 24.—(AP)—Reporting that higher prices for silver bullion in the United States were draining off Mexican silver money, the treasury ministry yesterday banned the export of any silver coins.

The ruling will have the effect of making Mexicans and tourists leave their change behind when they cross into the United States.

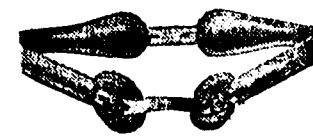

United States coins may still be carried in either direction across the border, although the international movement of dollar currency with the exception of 2 bills, has been banned.

TRACTORS and IMPLEMENTS

We have three new tractors and ten used ones, don't know whether or not we will get another shipment, so if you want a new one you will have to hurry and get your permit.

Our used ones are all overhauled and guaranteed to be in good condition and the prices are sure enough right.

As for implements we have just a limited amount and looks like we won't get any more. We are losing sales every day for the want of them. Better look over the old ones and call us for the repairs necessary to repair them. So far we are getting most of the repairs and will try hard to supply your needs.

If you are going to plant oats and need some good seed we have three hundred bushels of 1941 seed that are real good.

We also have a number of good young work mules and some horses and mares. Call and see them.

Our Electric store is almost blank, have three washing machines left and some radios. See them quick.

REV. J. N. R. SCORE TO BE INAUGURATED UNIVERSITY HEAD

Friends in Corsicana and the Corsicana district of Methodism have received invitations to attend the inauguration of John Nelson Russell Score as the president of Southwestern University, Georgetown, Texas. The invitation reads: "The Board of Trustees and the Faculty of Southwestern University request the honor of your presence at the inauguration of John Nelson Russell Score as tenth President of the University on Tuesday, October 6th, Nineteen hundred and forty-two, Georgetown, Texas."

The program will start with flag raising exercises in front of the Administration building at 10:30 o'clock. The inaugural exercises will be held in the West Gymnasium at 11 o'clock; the procession will form at 10 o'clock; academic costumes will be worn; robing will take place in the Administration building.

Luncheon will be served to delegates and other guests at 1 o'clock. Dr. Score, the new president, was the former pastor of First Church, North. He has been in Corsicana several times where he held a revival for First Church and has been the guest speaker before the Lions Club and Temple Beth-El.

He succeeds Dr. J. W. Bergin, who was pastor of First Church in this city four years, and who is now district superintendent of the Waco district.

Wide World Features. Government officials have strongly recommended to the WPB a regulation that will probably within a few months affect the eating habits of the 130,000,000 men, women and children of the United States.

MEAT

Continued from first page. The allowance proposed, the Secretary declared, was entirely adequate for good nutrition, assuming the 2-1/2 pound limit was observed.

It is necessary that individuals hold their consumption at this figure whether they eat at home or in public eating places," Wickard said. "Public eating places in some sections may prefer some such device as a meatless day."

"We plan to consult with the trade groups of people managing public eating places and help them work out methods of enabling their patrons to stay within the sharing limits."

May Use Any Method. Individual households may use any method the family prefers in effecting the limitation, he explained. However, if there are invalids, aged persons, young children, or vegetarians in the home—none of whom would normally consume 2-1/2 pounds of meat a week—the housewife should reduce her purchases accordingly, Wickard declared.

In actual operation, he predicted, the overall 21 per cent statistical cut in civilian meat supplies probably would not be as great since adjustments will be made when necessary to allow for changes in distribution patterns and wartime food requirements.

As evidence of the increasing army, navy and land-lease needs, Wickard said estimated requirements have climbed 500,000,000 pounds since the 6,000,000,000-pound forecast made by the committee three weeks ago.

The total demand for meat is 27-500,000,000 pounds, against a supply of 24,000,000,000, he added.

K. WOLENS DEPARTMENT STORES

INFLATION

Continued from first page. Administration leaders had sought to split the farm bloc apart in the senate by offering an amendment which would leave to the President the determination of when increased costs were not reflected by the price ceilings. The President had expressed "unalterable" opposition to recomputing the basis of parity.

"The compromise doesn't mean anything," Thomas told reporters. "We want to write this thing directly into the law."

Senator Russell (D-Ga.) said the compromise proposal in itself was not so bad, but there was some fear among agriculture committee members about its administration.

Will Be Fought Out. Democratic leaders of Kentucky, said before the committee voted that if the farm group did not accept the compromise, the issue would be fought out on the floor of the senate.

Three members of the senate farm bloc abruptly left a meeting with administration leaders today and Senator Thomas (D-Okla.) announced he and others of like views would not compromise. A proposal to increase the level of farm parity prices in the anti-inflation bill.

"I am not in any position to accept any compromise," Thomas told reporters as he walked out of the conference.

He said administration leaders were drafting a compromise proposal which would direct President Roosevelt to take into account the cost of all farm labor in fixing prices on agricultural production.

Thomas, with Senator Hatch (D-NM) has presented an amendment which would include farm labor costs in the computation of parity. President Roosevelt has expressed "unalterable" opposition to such a move, and his lieutenants in congress have sought to split farm bloc support of the amendment with a compromise.

Together. Thomas, Hatch and Republican Leader McNary, of Oregon, left the meeting together.

Other senators who attended and apparently favored the administration compromise included Democratic Leader Barkley, Kentucky; Senators Brown (D-Mich.), Wagner (D-N.Y.), Tydings (D-Md.), O'Mahoney (D-Wyo.), Taft (R-Ohio), and Reed (R-Kan.).

Reed's compromise proposal which Thomas said was revised only slightly when it was offered at the meeting by administration leaders. The House action in passing the anti-inflation bill yesterday with an amendment identical to that proposed by Thomas and Hatch in the senate was credited with stiffening the determination of farm bloc members in the latter body to force the same proposal into the bill there now.

Thomas told reporters he did not believe the President would veto the measure if the parity change were made.

"If the farmers are knocked out of this change in parity and industrial wages and profits continue to go up, I am afraid of the effect on food production," Thomas said.

The farm bloc's effort to change the basis of parity has an important bearing on the proposed grant of board authority to President Roosevelt to stabilize prices, wages and salaries at September 15 levels, so far as practical.

The situation shaped up like this: 1. An unofficial poll showed 40 of the 96 senators committed to support the principle of an upward parity revision. 2. Against 10 undecided, eight declining to comment and seven not reached. 3. Senator Thomas (D-Okla.), co-author of the amendment, declared that he and others of similar views could not accept a compromise proposed by Senators Reed (R-Kan.) and Tydings (D-Md.). 4. An authoritative source, declining to be quoted by name, said the administration was supporting this compromise, which would not disturb the present basis for computing parity, but would direct President Roosevelt to take into account farm labor costs in modifying price ceilings to correct "gross inequities."

5. This same source said that if the parity revision were included in any bill sent to the White House, President Roosevelt would veto it and could be expected then to take the initiative in fixing farm prices, as he threatened to do if Congress did not act before October 1.

Farm Leaders Statement. Hailing the house action and predicting victory for the parity amendment in the senate, the leaders of four national farm organizations declared in a statement: "should the president veto the present legislation he must accept responsibility for the future food and fiber of the nation."

The farm leaders, Albert Coss of the National Grange, Edward O'Neal of the American Farm Bureau Federation, H. E. Babcock of the National Council of Farmer-Co-operators, and Charles W. Holman of the National Co-operative Milk Producers Federation, summed up their attitude toward the compromise effort as follows: "Agriculture has made its last compromise with hunger. We are solidly behind the Thomas farm bloc amendment, and leave to those who would defeat it the responsibility of feeding the nation."

Thus far the whole congressional controversy over the anti-inflation measure has centered on the proposed change in the parity standard. Based usually on 1909-14 farm prices, this standard is calculated to equalize the amount farmers pay for the things they buy with the amount they receive for what they sell.

The legislation would direct the president to stabilize prices, wages and salaries at Sept. 15 levels, so far as practical, but he could not order any ceiling placed on a farm commodity where the price of that article had not reached parity.

Would Increase Prices 12 Pct. WASHINGTON, Sept. 24.—(AP)—Agriculture department economists estimated today that the parity price formula proposed in the House version of the anti-inflation legislation would increase present parity prices about 12 per cent.

The Office of Price Administration says the house parity prices would raise the cost of living between \$3,000,000,000 and \$3,500,000,000 a year.

The administration has expressed opposition to proposals for changing the present method of computing parity prices.

Farm Bloc May Rule Senate. WASHINGTON, Sept. 24.—(AP)—The farm bloc apparently has a whip hand in the senate today, with 40 of the 96 senators expressing approval of the principle of an amendment to revise the par-

THREE BROTHERS IN NAVY—Pictured above (left to right) are three brothers serving in the United States Navy, Elmer Allen Ray, Alvie Ray and Clarence Ray. They are sons of Mr. and Mrs. E. RUSSIAN

Continued from first page. destroyed an artillery battery and three mortar batteries and killed 160 Germans.

"Northwest of Stalingrad Soviet troops have inflicted a counter-blow on the Germans. One unit, by a vigorous attack, dislodged the Germans from a populated place. The Germans left over 250 dead on the field. We captured three guns, two mortars and four machine-guns."

"In another sector several enemy attacks were repulsed and about 700 Germans were killed."

Other details were supplied by the midnight communiqué.

Red Star said the German command was trying to supplement its siege forces with a new column. The direction of this advance was not specified.

Bombers, fighter planes, heavy artillery and tanks were reported employed by the Red army in the interattacks northwest of Stalingrad. The threat against the Nazi flank as well as the heavy direct pressure was credited with forcing the invaders to withdraw.

Russians Building Bridges Under Water

NEW YORK, Sept. 24.—(AP)—Russian ingenuity in the use of concealed bridges for retreat and counterattack in the battle of the Don Bend draws plaintive comments from Il Giornale D'Italia of Rome.

"The Soviets," said the newspaper in a dispatch broadcast today by the Berlin radio, "built several dozen bridges across that river the Don which were, however, completely invisible to Italian ground troops and also to the air force because they were laid about a foot and a half below the water's surface."

Moving up or withdrawing the Russians waded knee-deep across these bridges by night. The dispatch said the trick was discovered when a Russian soldier pursued by Italian infantrymen escaped by striding across one of the spans.

BELLS

Continued from first page. farm implements were piled in the middle of the roads at intervals of about 300 yards. As the shortage for iron began to be felt, many of these scrap metal plane traps were removed and replaced by wooden pyramids.

In addition to the search for metals along the highways, byways and in church bellfries in Germany, the regular junk collections instituted years ago, are continued in German cities. Street cleaners salvage nuts and nails which drop from vehicles. About once a week a junk collector, pushing a little cart, worms his way into the courtyards of apartment buildings.

His street hawk's bellow of "knocken, alt metel, lumpen" (bones, old metal, rags) wells up from the courtyard, between six-story walls and echoes from the recesses of the building. The raucous cry is a harsh, hoarse, profound smack on the eardrums of the day-sleeper after a ten-hour shift in the factory.

The startle would-be sleeper yells down "lumpen" (rags) for a junkman.)

ty price formula to include farm labor costs.

Senators Connally and O'Daniel of Texas were among those favoring the amendment, according to an Associated Press poll, as efforts were begun by administration leaders to effect a compromise.

Among senators who commented on the Thomas-Hatch amendment to revise the parity price formula to include farm labor costs were: Connally (D-Texas)—The farmer should be entitled to the same consideration with respect to his increased labor cost as industry is. O'Daniel (D-Texas)—It looks like sound business to me to include the cost of labor in arriving at the cost of farm products.

LOUIS-CONN

Continued from first page. neither fighter nor any "private interest" would receive any return.

Change In Setup. On Sept. 18, however, a change in this setup was announced by the committee of New York sports writers, named to handle the fight between Mike Jacobs and the terms of this new setup, which the committee said had been approved by the war department, it was agreed that Louis would receive \$100,000.53 in pay of obligations. Conn was to receive \$34,500 for the same purpose.

Louis' obligations, as announced by the sports committee, consisted of \$39,805.50 to the Twentieth Century Sporting club, of which Promoter Mike Jacobs is the head, and \$41,146.03 to one of his managers, John Roxborough. Conn's obligation also was said to be to the Twentieth Century Sporting Club.

Both fighters' indebtedness, it was said, consisted of sums advanced at various times by Jacobs and Roxborough for personal bills.

The sports committee's announcement followed a stormy session at which it is known that some members were opposed to the plan. The committee said that it had found it "impossible to conduct the fight under the original plan suggested by the war department" under the terms of which no private interest would have benefited.

Mike Jacobs' Story.

In New York, Jacobs, promoter of the fight, had this to say: "War Boxing Incorporated and the War Department asked me to promote this fight to raise a large sum of money for army emergency relief."

"The plans for the fight were approved by the War Department and War Boxing Inc. If Mr. Stimson thinks an investigation is necessary, it's all right with me."

A representative of the War Department saw Louis at Fort Riker before the fight was arranged. Louis told him that he had certain obligations which he would like to have met if he was going to fight. So far as I am concerned, whatever money Joe owes me he can owe me for as long as he wants."

War Boxing, Inc., is the corporate name of the sports writers committee.

SCRAP

Continued from first page. sight of large piles of scrap in junk yards or elsewhere might give the impression that scrap was plentiful, pointed out:

Those piles, even though unshipped to the mills for a while, mean only that the industry knows where they are, will take them in as soon as transportation facilities allow, and can count ahead on how much scrap is known to be available.

Loving Cups to Scrap. EVANSTON, Ill., Sept. 24.—(AP)—The 100 loving cups Mrs. Helen Shockley has in her home were rewards for winning tennis matches over a period of 18 years, but she is going to get rid of them—her contribution to the defense scrap drive.

Successful Scrap Drive. CINCINNATI, Sept. 24.—(AP)—Hamilton county (Cincinnati) conceded that Nebraska did a marvelous job in collecting 104 pounds of scrap metal per person in three weeks, but the local folk want you to read this:

Their scrap campaign has yielded 280 pounds per capita. The explanation is that Cincinnati and Hamilton county started their drive nine months ago.

Harold W. Nichols, chairman of the county's scrap-drive committee, reported 238,885.341 pounds of scrap iron and metal were turned in.

Success of the local campaign was attributed by Nichols to "tremendous publicity given to it by newspapers in a continuing editorially and in their news columns."

INTERNATIONAL

Continued from first page. a flaming barrage on German shock troops within the battered city, supporting Red Army artillerymen, machine-guns and riflemen in mowing down the invaders by the thousands.

German warplanes were pounding the city and Volga River traffic in continuous raids, Rer Star said. Large numbers of refugees were reported smashed.

In the streets, Nazi troops seized. As the struggle continued, amid a large building after violent fighting, the Red Army newspaper added: Soviet patrols rushed its approaches, overpowered guards, and blew up the structure while Germans were inside.

The first faint signs that the Nazi offensive may have passed its peak pointed out the city when Premier Stalin for two hours in Moscow and subsequently declared he would take back to Washington a story of growing Russian disappointment and dissatisfaction over the failure of Britain and the United States to open a second front.

Must Feel It. "I feel it and you must," Willie said, after chatting with Stalin and presenting a personal message from President Roosevelt.

Meanwhile, the British radio declared the allies were preparing to launch an offensive without warning against Germany and appealed to the French people to cooperate by evacuating French coastal areas.

"An offensive of the United Nations is being prepared," the broadcast said. "The day when we can be assured of attaining our goal—which is nothing less than the annihilation of Hitlerite Germany—this offensive will be launched."

British bombers carried out new attacks on Germany overnight, attacking the Nazi U-boat base at Flensburg and an axis convoy off the Dutch coast. Ten RAF bombers were listed as missing.

Flensburg is a Baltic port in the Prussian province of Schleswig-Holstein, near the Danish frontier, which has come under increasingly heavy attack in recent weeks.

Vichy Announces Loss Tananarive. VICHY, Sept. 24.—(AP)—British occupation of Tananarive, capital of Madagascar, was announced officially today by the French government which said Governor General Armad Annet had reported with regret that stubborn resistance by his troops had failed to halt the British advance.

Czech Women to Aid Reds. LONDON, Sept. 24.—(AP)—Czech women have formed an all-female unit which is serving with the Red army, the exiled Czechoslovak government announced today. It said most were girls and women who had escaped from their homeland after they were ordered deported to German labor camps.

Axis Kills Many Yugoslavs. NEW YORK, Sept. 24.—(AP)—A Berlin broadcast containing the tacit admission of the extent of patriotic resistance in old Yugoslavia declared today that in two weeks ending Sept. 8, axis occupation forces killed 3,000 persons and

TRAIN WRECK

Continued from first page. bound from Washington to Cumberland, Md.

Three injured persons of 21 aboard the Pullman were pulled out, and four bodies were taken from the car.

Norris identified the dead trainman as J. M. Gihart of Baltimore, a Pullman porter on the freight. The dead passengers were not immediately identified.

Seven persons in the car just ahead of the Pullman were accounted for and the injured among them hospitalized. This car was partially damaged.

The collision piled up a mass of wreckage, with the Diesel engine overturning and catching fire, the Pullman telescoped and several freight cars overturned. Steel pipes carried by the freight were twisted and broken and piled up into a little mountain. A baggage car in the second train overturned and burst open, and one body was found there.

Lloyd L. Jones, Jr., Dickerson merchant who reached the scene 10 minutes after the crash, said he heard persons moaning and groaning in the wreckage.

Ambulances and fire engines from nearby towns rushed to the scene, and one fireman said fire fighters were hampered by lack of water. He described the wreck as "a terrible scene."

A hospital train with doctors and nurses sped to Dickerson from Washington.

Gov. Herbert R. O'Connor of Maryland said all available state police and state police ambulances were sent to the wreck.

captured 4,000 more in the mountainous West district.

patriots referred to as hmrdrus. The German broadcast referred to the patriots only as brigands, yakabonds, bandits and criminals. It gave no clue to the fate of those captured.

Officials Reach London.

LONDON, Sept. 24.—(AP)—The Belgian government announced today that three of its former ministers had reached London—one escaping from Belgium and two from unoccupied France—and said two of them would leave soon on missions to the United States and Canada.

Albert Deschreiver, who was minister of economic affairs in the pre-invasion government of Belgium, will confer with the United States government on questions of Belgian interest, the announcement said.

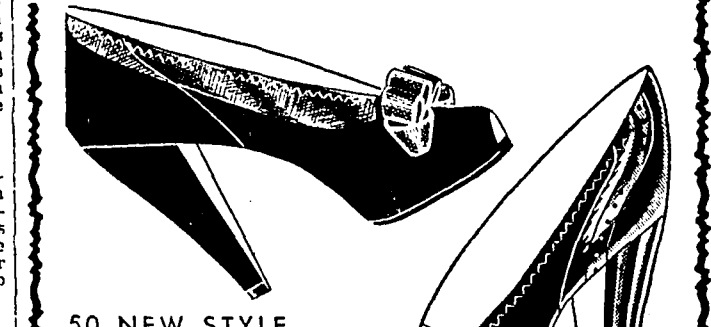

Await Reparation Ship. NEW YORK, Sept. 24.—(AP)—One hundred thirty United States and British nationals recently moved by the Japanese from the Santo Tomas internment camp at Manila to Shanghai are "waiting for a reparation ship" at the latter port, the Tokyo radio said today.

K. WOLENS DEPARTMENT STORES

The Nation's steel mills are running out of scrap. They haven't enough on hand for even 30 days more. When this is gone they may have to shut down—for all new steel is 50% scrap. Get your scrap ready to turn in now!

WHOSE BOY WILL
DIE BECAUSE YOU
FAILED?

as soon as you get a chance. So you're going to get that chance!

Next week we're starting the biggest drive you've ever seen, to get in this precious material. And you're going to pitch in, too, because this situation is serious.

Start looking around your place for scrap today. If you've got a son in the service, do it for him. Do it for the neighbor's boy—for those fine young chaps you just passed, out on the street.

Above all do it for your country . . . and do it now!

THINK about it as revenge—a way to get back at the scum who have attacked us. Or think about it as a little more protection for our fighting men—something you, yourself, can do to bring as many as possible home alive.

But think about it now—for the scrap in homes, farms and factories has got to be moving to stock piles within the next few weeks or it may be too late!

Maybe you don't know what it means to have production fall off. Maybe you can't imagine how it feels to be hunkered down in a foxhole wishing for just one more clip of cartridges. Or to see the enemy rolling through your lines because you didn't have just a few more tanks.

Or maybe you don't care!

We think you do. We feel that our whole community is ready to rise up and bring in the scrap

The preliminary organization work for the new scrap metal drive in Navarro County starts September 21st. with active drive over the county to start September 28th. and continuing until October 17th. the closing date of the campaign.

Chairman Fred Prince and committees in charge of the Navarro County Scrap Metal Campaign will announce plans for the extensive new drive right away.

Watch this paper for details of the big scrap drive

Newspaper's United Metal Scrap Drive

This advertisement together with its efforts through its news columns is contributed by The Corsicana Daily Sun and Corsicana Semi-Weekly Morning Light being done by all newspapers in the country—all being behind this drive for scrap.

ADDITIONAL LIST APPROVED TIRE AND TUBES APPLICANTS

An additional list of approved applicants for new or retreaded tires under the September quota was announced today by officials of the Navarro County war price and rationing board. They include:

Truck Tires:
J. S. Smith, Kerens, retread; David Atchley, Rice; Paul W. Gregory, Streetman; C. L. Moore, Roane; W. T. Arnett Barry, W. F. Mitchell, Corsicana; R. L. Waller, Dawson; C. E. Phillips, Kerens, pickup; R. T. Hines, Kerens, pickup; C. E. Donnelly, Kerens, pickup; J. A. Daniel, Kerens, pickup; Navarro School District, bus; J. W. Little, Corsicana, pickup, retread.

Corsicana Youth Is Pleased With Navy

Clifford Kelton Holloway of the U. S. Navy, in a letter to Chief Petty Officer Fitzhugh of the local recruiting station Wednesday, gave an interesting account of his activities in the navy since his recent enlistment.

Holloway has just arrived at the naval training base at San Diego, Calif. He was particularly enthusiastic about the trip across the continent and the uniforms that were issued upon arrival. He also expressed surprised satisfaction

Hillsboro Barbecue To Honor Governor; Corsicanan Invited

Invitations have been extended a number of Corsicanans to attend a barbecue at Hillsboro on Saturday night, Oct. 3, which is being given in honor of Governor Coke R. Stevenson and four other outstanding Texans.

The barbecue is being held at Doughty Hall and is dedicated to "Texas At War."
Others being honored include Lt. Col. Neill H. Banister, Austin, Chief of Staff, military forces of Texas; Colby D. Hall, Fort Worth, Dean, Texas Christian University; John Knott, Dallas, of the Dallas Morning News; H. H. Williamson, College Station, director, Texas extension service.

The affair will begin at 6:30 o'clock Saturday evening, at which time a reception will be held. Committee in charge include Burris C. Jackson, chairman; H. E. Chiles, J. Henry Duke, Pat E. Hooks, Glenn F. Marshall, and Clyde Tomlinson.

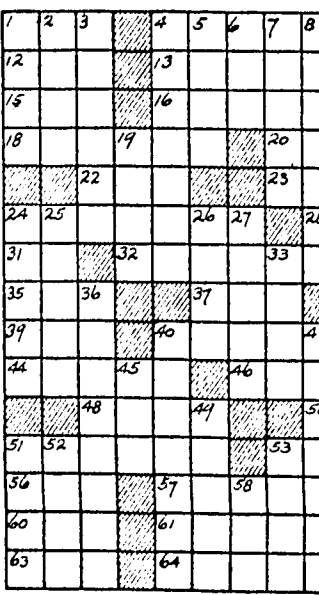

with the numerous recreational facilities available and the genial comradeship existing among the recruits and the officers.

PRICE CONFERENCE BE HELD HERE ON OCTOBER 8 AND 9

Chairman Wilbur A. Wright of the local war price and rationing board was informed Thursday morning that the Office of Price Administration would hold a series of conferences in Corsicana Thursday and Friday, Oct. 8-9, at which time specialists of the OPA would confer with local business men on price regulations of all kinds. The group will be headed by J. P. Goodman, price specialist of the Dallas regional office.

Chairman Wright attended a state-wide OPA meeting at Huntsville all-day Wednesday, during which the seriousness of the tire shortage was discussed. He was accompanied by Mayor John C. Calhoun. The meeting was under the sponsorship of both the OPA and the East Texas Chamber of Commerce.

Mark McGee, state administrator, stressed the fact that only a small portion of eligible people will be supplied with tires. He stated that all duplications of delivery services must stop and added that in many cases the problem could be alleviated by pooling transportation facilities. This includes farmers as well as delivery services of all kinds.

HEALTH, BEAUTY AND POISE

HOW TO IMPROVE YOUR PERSONALITY
By VERONICA DENGEL

BODY CARE

Today I want to discuss a delicate subject—but one which must be given its full consideration and attention. It is the matter of body odors. Of course, the person who neglects to bathe daily, and has a body odor must know the reason for it—she is not the one I am writing about. All she needs to do is be less careless about her person. Veronica Dengel

Occasionally, however, I find that a girl who is meticulously clean about herself will suffer a strong body odor. This is most unfortunate, and a source of much concern. When such a trouble exists it is important first to check the dietary and elimination habits, because it is evident that the body is so loaded with waste it is using the skin to throw off some of it, resulting in an unpleasant odor. This is particularly true when such a person is a heavy meat eater—the odor from such waste is particularly heavy. All perspiration has some odor to it, and we must guard against offending those with whom we come in contact. For this purpose, splendid deodorants have been made available, and frankly, I feel it is wiser to use brands put out by manufacturers who control the careful combination of ingredi-

ents. Commercial types are scientifically prepared, and quite inexpensive. There are cream types or liquid, depending on which you prefer. Deodorants do not stop perspiration, they simply neutralize the odor of it. Such preparations are quite sufficient for the woman who does not perspire freely, or who uses shields at the under-arm of her frocks. On the other hand it is a mistake to take a chance of the odor of it. Such preparations are never known when sudden excitement or nervousness will cause perspiration to flow quite freely. It is, then, a nice habit to use perspiration check; such preparations also come in cream or liquid form, and stop the perspiration where it is applied. Naturally, it is also a deodorant, whereas a deodorant is not a perspiration check. Follow the directions on your package carefully. When you are cautioned not to use it directly after removing superfluous hair—then don't, or there will be an irritation. In choosing such a preparation, it is preferable to select a mild one and use it more frequently—than one so strong it is effective for several days. However, in cases of excessive perspiration, the stronger preparations are better safeguards. If the use of a perspiration check under the arm causes the hands to perspire, then the milder one with the additional protection of shields is to be preferred. It goes without saying that the shields must be fresh every day. Moist hands are unpleasant for others to touch, and the careful combination of ingredi-

ALL CLASSES ARE AMONG VICTIMS OF VENEREAL DISEASES

AUSTIN, Sept. 24.—(Sp.)—Because of the fact that a venereal disease is no respecter of persons, people of every class and color, rich and poor, educated and ignorant are numbered among the victims, asserts Dr. Geo. W. Cox, state health officer.

"Venereal diseases, of which syphilis and gonorrhea are the more commonplace, are among the most vital health problems in the state of Texas today," Dr. Cox said. "This state has been chosen as the location for dozens of army camps, training fields, naval bases, ship-building yards, airplane construction plants, and other major defense industries. The resulting influx of workers and armed forces has emphasized the need for exterminating every known means in the control of venereal diseases."

The state health officer pointed out that self-diagnosis and self-treatment are extremely dangerous and advised consulting a physician for determining definitely whether or not a venereal disease is present.

"Only a reputable physician can properly diagnose such a disease. The presence of gonorrhea is not disclosed by a routine blood test, and the diagnosis of syphilis requires more than a blood examination," declared Dr. Cox. "Both syphilis and gonorrhea are almost 100 per cent curable if discovered and treated in their very earliest

stages. Thousands of deaths annually could be prevented," Dr. Cox said, "if sufficient attention were given to the early diagnosis and thorough treatment of syphilis. Delay reduces the chance of cure and in many cases is the direct cause of death."

ANOTHER CORSICANAN MAKING GOOD IN U. S. ARMED FORCES TOLD

Report of another Corsicanan making good in the armed forces is contained in a recent issue of the Waycross, Ga., Journal-Herald, in which a photo and story appeared about Second Lieutenant James H. Perry, son of Mr. and Mrs. F. L. Perry, 1603 West Ninth avenue. The story:

"Although he is just 21 years of age, Second Lieutenant James H. Perry holds one of the most important positions in the tactical group stationed at the Waycross army airport. His job as post adjutant puts him in the role of administrative assistant and representative of the commanding officer. Lieut. Perry is another of the many Texans in the group. He was born in Corsicana, Texas, March 4, 1921, and that city is still his home town. Grade and high school education was acquired by Lieut. Perry in his home town and it was shortly after that when he enlisted in the army, December, 1939. He served at Brooks Field, San Antonio, Texas, for two and one-half years, advancing to the grade of staff sergeant and holding the position of assistant post sergeant major. He then became a warrant officer, junior grade, and soon after attended the air force administrative officer candidate school at Miami Beach, Fla., where he graduated in June of this year.

Lieut. Perry then became a member of his present organization and last month was appointed adjutant. He has a variety of interests. In high school he participated in baseball and basketball, radio dramas and was a member of a shorthand club. His church affiliation is Methodist and in his home church he held the position of president of the young people's department and was also active in Methodist churches in Abilene and San Antonio, Texas."

CIVITANS HEARD REPORT DELEGATE DISTRICT MEETING

Discussion of future club projects and a report by John Sibley on a recent district convention held at Dallas featured the weekly luncheon session of the Corsicana Civitan Club Thursday noon at the Navarro Hotel.

Sibley said that delegates to the convention voted to continue on a tentative basis with plans for the second annual state convention to be held at Fort Worth.

He said that representatives from the various clubs insisted on more and better club projects as a means of stimulating interest in club work. A delegate from the Frost club announced that the membership of that organization is now conducting nine projects. In addition, Sibley said that the entire Frost club is picking cotton to relieve the labor shortage in that section.

Concluding, he stated that Corsicana had received considerable praise for the excellent handling of the first state convention here.

President Frank V. Williams presided. He appointed Dr. S. H. Burnett and L. M. Morton as program committee for the next meeting.

WORK OF SALVATION ARMY IN USO TOLD TO ROTARIANS TODAY

Work of the Salvation Army in the USO was discussed in an address by Captain Herschel Murphy of local Salvation Army before the Corsicana Rotary Club Wednesday noon at the Navarro Hotel.

The musical part of the program was furnished by Captain Murphy's son, Bob, who played a special arrangement of a classical composition.

Pointing out that the USO is composed of six welfare organizations—the Salvation Army, YMCA, YWCA, Travelers Aid, Catholic and Jewish—Captain Murphy stated that while methods may differ in the operation of the centers, the ultimate objective is the same—

JUNKMAN HAS AN IMPORTANT PLACE IN PRESENT CAMPAIGN TO COLLECT ALL SCRAP METAL

By HUDSON PHILLIPS
NEW YORK, Sept. 23. (AP)—Wait a minute before you get sore at the junkman for not coming around for your 25 pounds of scrap or not giving you the price you thought it was worth.

Maybe the sight of scrap piled high in his yard discouraged you from realizing fully that there was a real serious shortage.

Maybe the junkman would have good answers to your wondering. If you don't know the answers or don't understand them and therefore stop collecting scrap, the war job suffers.

Because the junkman is doing important work in the war, the government is taking the trouble to set public thinking straight about the role he's playing.

More than ever he'll be valuable in the next three weeks as American newspapers spearhead scrap collections for the mills which are producing 5 million tons less steel than they should because of scrap lack.

More than 1,400 newspapers are in the drive which officially runs from Sept. 28 to Oct. 17, but in some states already is under way. The war production board warned this week that unless there is an "exceptional job" of iron and steel scrap collection this fall the country's blast furnaces would have to cut down steel output this winter.

You may dump your scrap—anything from old lawnmowers to iron pots—in the town square's collection bin, but eventually it will move to the mills through the junkman who buys it.

On the subject of junkman's prices, the institute of scrap iron and steel says: "figuring his various expenses, the junkman can't afford to pay more than \$9 a ton for the best scrap."

The price the mills pay him varies from \$13 to \$20 a ton, depending on the location. It costs him from 55 cents to \$5 a ton to move it to the mills. It costs him from \$3.50 to \$4.50 a ton to prepare it before it moves.

The WPB considers the junkman's job so important that now it gives him an award of merit—similar to the army-navy merit award for outstanding jobs by industrial plants—when he fills certain requirements which include:

Delivering to the mills tonnage of scrap 33 1-2 per cent greater than his monthly average in the first six months of 1942.

This is the answer Donald Nelson, WPB chief, gives to critics of the junkman:

Only the junkman has the experience and equipment to do the

right job of sorting, grading, preparing, packing and accumulating scrap in lots large enough to be shipped efficiently to the mills.

Must Get Permission Quit Certain Jobs

AUSTIN, Sept. 24. (AP)—The war manpower commission's order prohibiting workers in production and maintenance operations in non-ferrous metals or lumbering activities from seeking other employment will be enforced in Texas through six area committees. Announcing the formation of committees in El Paso, Amarillo,

Waco, Corpus Christi, Beaumont and Longview, J. H. Bond, regional manpower director, said yesterday:

"Any worker who feels he is entitled to separate from his employment in non-ferrous metals or lumbering activities should contact his nearest U. S. employment office."

"There his request will be heard and if he presents acceptable reasons he will be granted a certificate of separation from his

present employment and assisted in finding work in another industry."

"If this request is not granted by the employment service, the worker has the right of appeal to the area manpower committee."

Germans Prepare for Invasion.

LONDON, Sept. 24. (AP)—Norwegian sources said today that the Germans were hastening the installation of anti-aircraft batteries and sowing thousands of mines along

the Norwegian coast in a widespread tightening of anti-invasion defenses.

Red Phases Did Not Bomb Cities.

MOSCOW, Sept. 24. (AP)—An official denial that Russian planes have been bombing Bulgarian cities was made public today through Tass, Soviet news agency.

"The foreign press circulates a report alleging that a few days ago a group of Soviet aircraft dropped bombs on some Bulgarian

populated places," Tass said. "Tass has been authorized to deny this as a lie fabricated with clearly provocative purpose."

Hitler's Coffin Goes In Scrap.

VICTORIA, Sept. 24. (AP)—A black, steel coffin, bearing the sign "Reserved for Hitler" occupies a conspicuous place on the scrap heap at a downtown lot. The coffin was contributed by an undertaker.
